Corsair iCUE Link QX120 RGB 120mm PWM fan Expansion kit - White

Product Overview

Corsair iCUE Link QX120 RGB 120mm PWM fan Expansion kit - White, 120mm x 25mm fan size, RGB LED Colour, PWM Control, RGB Link compatibility, 16.44 - 63.1 CFM fan Airflow, 400 - 2400 rpm Speed, RGB LED Lighting with two Distinct Light zones per side, Features Magnetic Dome bearing Technology for low noise Operation

Specifications

Overview Summary:

Enhance your custom PC build with the Corsair iCUE Link QX120 RGB 120mm PWM Fan Expansion Kit in White, now available for purchase in South Africa. This expansion kit integrates seamlessly into your existing setup, offering four distinct lighting zones and smart component control through a single-cable ecosystem that eliminates clutter.

Featuring magnetic dome bearings for exceptional silence and zero RPM mode to stop spinning completely during low loads, this fan ensures efficient cooling without the noise. The built-in temperature sensors allow for precise PWM control between 400 and 2400 RPM, delivering up to 63.1 CFM of airflow. Upgrade your system with advanced lighting modes like Time Warp today.

Don't miss out on this premium upgrade for your DIY PC project. Buy now or shop now to get the Corsair iCUE Link QX120 RGB fan expansion kit delivered straight to you in South Africa and start building a smarter, quieter setup.

Performance tier: High-end Smart Cooling

Uses:PC cooling, silent computing, custom RGB builds, cable management, temperature monitoring

Overview:

Add a CORSAIR iCUE LINK QX120 RGB 120mm PWM Fan Expansion Kit to your system for even more lighting with four distinct light zones. This white expansion kit is designed to integrate seamlessly into your existing setup, requiring an iCUE LINK System Hub and cables which are sold separately. By adopting this groundbreaking single-cable technology, you redefine the way you build a DIY PC as it automatically detects and configures your fans, CPU coolers, and other internal components.

Description:

This expansion kit brings brilliant lighting from all angles to your build using 34 RGB LEDs spread across two distinct light zones on each side. It features a magnetic dome bearing for exceptionally low noise with almost no friction and includes a built-in temperature sensor in every smart fan for sophisticated control options. The PWM-controlled fans operate from 480 RPM up to 2,400 RPM, pushing up to 63.1 CFM of air while the Zero RPM mode allows them to stop spinning completely at low loads to minimize noise.

Features:

Build Smarter with iCUE LINK Technology
The iCUE LINK ecosystem simplifies your build by using a single connector for all compatible devices, reducing cable clutter significantly. Each component connects directly to the next, creating a chain of devices that unites your setup under one management system. You can stack fans and connect freely to the iCUE LINK System Hub or other components without complex wiring. Exclusive features like the Time Warp lighting mode allow you to freeze your fans in time with RGB effects, while smart component capabilities enable two-way communication with the hub for precise adjustments.

Key Specifications
The CORSAIR iCUE LINK QX120 RGB fan (Part Number: CO-9051005-WW) delivers high performance with a static pressure flow type optimized for restricted airflow environments.

- Fan Size: 120mm x 25mm
- LED Color: RGB with 34 LEDs per fan
- Speed Range: 400 to 2,400 RPM

- Airflow: 16.44 to 63.1 CFM
- Static Pressure: 0.17 to 3.8 mm-H2O
- Sound Level: 10 - 37 dBA
- Power Draw: 1.02A
- Bearing Type: Magnetic Dome Bearing
- Control Method: PWM with Zero RPM support
- Package Quantity: 1 Expansion Kit

What's in the box
The package includes one Corsair iCUE LINK QX120 RGB Fan Expansion Kit in white.
Note that an iCUE LINK System Hub or compatible cables are required for operation but are sold separately.

Specifications	
Product Code	CO-9051005-WW
Weight	0.306
Fan Size	120mm x 25mm
LED Color	RGB
Package Quantity	1
Power Draw	1.02A
PWM Control	Yes
Sound Level	10 - 37 dBA
Fan Static Pressure	0.17 - 3.8 mm-H2O
LINK Compatibility	RGB
Fan Airflow	16.44 - 63.1 CFM
Flow Type	STATIC PRESSURE
Speed	400 - 2400 RPM

FAQ

Does this fan kit include the necessary hub to connect the fans?
No, this expansion kit requires a separate iCUE LINK System Hub or iCUE LINK Cable (sold separately) to function.

What are the physical dimensions of these fans?
The included fans measure 120mm x 25mm and feature a static pressure flow type design.

Can I control the fan speed and lighting independently?
Yes, the fans offer PWM control with speeds ranging from 400 to 2400 RPM and include Zero RPM mode for silent operation at low loads. You can also customize RGB lighting across two distinct zones on each side of the fan.

Does this kit support advanced lighting effects?
Absolutely, the fans feature 34 RGB LEDs per unit that enable exclusive modes like Time Warp, which freezes the fans in time

visually.

How does the iCUE LINK system simplify my build?
The ecosystem uses a single connector technology to automatically detect and configure components, allowing you to chain devices together directly without complex cable management or separate power connections for each fan.
