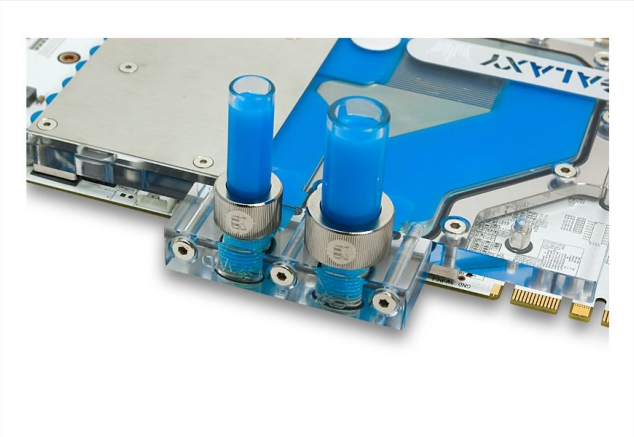
EKWB Hardline Compression Fitting with Black Design 12mm

Product Overview

EKWB Hardline Compression Fitting with Black Design, ID 12mm G1/4, for Use with Hardline Tubing in Custom Loops (3831109846056)



Specifications

Overview:

EK-HDC Fitting 12mm G1/4 - Black
Product EAN: 3831109846056

EK-HDC Fitting is a solid-tube compression fitting, designed for use with solid tubing such as Acrylic, Copper, Stainless Steel or any other type of compatible hard tube.

Features:

EK-HDC Fitting is a solid-tube compression fitting, designed for use with solid tubing such as Acrylic, Copper, Stainless Steel or any other type of compatible hard tube.

EK-HDC Fitting is a more secure variant of the EK-HD Adapter fitting as it prevents solid tube to be pulled out of the fitting by

compressing the rubber gasket underneath the ring.

The barb is made of black nickel-plated CNC machined brass while the ring is made of black-chrome plated CNC machined brass and feature quality O-rings. These fittings are fully compatible with EK-CSQ series (45 degrees/90 degrees) angled adapters.

Best practice is to install these fittings using Allen Key 9mm (not included, available for separate purchase).

ROHS Compliant!

PLEASE NOTE:

- Please wet the gasket (o-ring) using drops of water prior to installing the solid tube.
- Do not use excessive force when inserting solid tube!
- Do not use excessive force when attaching fitting barbs using Allen Key 9mm in order to prevent damage!
- It is mandatory to chamfer the edges of the freshly cut solid tube in order to prevent gasket (o-ring) damage. EK recommends a 0.5mm x 45 degrees chamfer.
- This product should NOT be installed with any aluminum Fluid Gaming parts!
