Specifications

About this product

The HTPNEO 100 Inch Portable Projector Screen with Tripod Stand provides a large 16:9 widescreen display for 4K and Full HD projection, with an anti-glare matte white surface for clear viewing. The foldable adjustable tripod, tool-free assembly and portable design make it suitable for movies, gaming, presentations and events indoors or outdoors. Buy this portable projector screen from our website for a flexible large-screen viewing solution.

Overview Summary

HTPNEO 100 Inch Portable Projector Screen with Tripod Stand

The HTPNEO 100 Inch Portable Projector Screen is designed to provide a large 16:9 viewing surface for home entertainment, gaming, presentations, classrooms, offices, churches and events. The 100 inch screen supports 4K Ultra HD and Full HD 1080p content and uses a matte white anti-glare surface to help provide clear projected images.

The included foldable tripod stand has adjustable height for flexible positioning and stable setup. Tool-free assembly allows the screen to be prepared for use without additional tools, while the lightweight portable design makes it practical for indoor and outdoor use. The screen can be folded for compact storage and transport.

Performance tier: Portable large-format projector screen

Uses: home cinema, movies, gaming, presentations, classrooms, offices, churches, events, outdoor movie nights

Overview

Transform any indoor or outdoor space into a cinematic experience with this lightweight, portable 100-inch 16:9 projector screen, optimized for 4K Ultra HD and Full HD 1080p content. Its anti-glare matte white surface delivers crisp, clear visuals for movies, gaming, presentations, and events, while the included foldable tripod stand enables quick, tool-free assembly and adjustable height. Weighing just 4.2 kg and folding to a compact size, it's easy to transport and store for use in homes,

classrooms, offices, churches, or outdoor movie nights.

Description

The HTPNEO 100 Inch Portable Projector Screen is a practical large-format projection solution for users who need a flexible screen for entertainment, presentations and events. Its 100 inch display provides a wide viewing area in a 16:9 format, making it suitable for widescreen movies, Full HD content, 4K content and gaming.

The screen features a matte white anti-glare surface designed for clear projected images while helping to reduce unwanted reflections. This makes the screen suitable for a variety of viewing environments where a dedicated projection surface is required.

A foldable tripod stand is included for convenient setup and storage. The tripod provides adjustable height and can be folded when the screen is not in use. Tool-free assembly makes setup straightforward, while the portable construction allows the screen to be moved between rooms or taken to suitable outdoor locations.

With its combination of a large 100 inch display, 16:9 aspect ratio, anti-glare matte white surface and portable tripod design, the HTPNEO projector screen is suitable for home cinema setups, gaming sessions, business presentations, classroom displays, church presentations and events.

Features

The HTPNEO projector screen combines a large viewing area with a portable tripod design for flexible projection wherever a suitable setup area is available.

- 100 inch widescreen display: Provides a large viewing area for movies, gaming, presentations and events.
- 16:9 aspect ratio: Designed for widescreen video and modern Full HD and 4K content.
- 4K and Full HD compatible: Supports projection of 4K Ultra HD and Full HD 1080p content.
- Matte white anti-glare surface: Provides a suitable projection surface designed to deliver clear visuals while reducing unwanted glare.
- Foldable tripod stand: Provides a convenient freestanding setup with adjustable height.
- Tool-free assembly: Designed for quick setup without additional tools.
- Indoor and outdoor use: Suitable for homes, offices, classrooms, churches and suitable outdoor viewing areas.
- Portable design: The 4.2 kg construction makes the screen easier to move between locations.
- Compact storage: The screen and stand can be folded for easier storage and transport.
