

1250G KBW

Honeywell Voyager Single-Line Hand-Held Laser Barcode Scanner

Product Overview

Voyager Lite 1D Single-Line Laser Scanner - Keyboard wedge (NO USB)

Specifications

Overview:

Honeywell's voyager 1250g single-line laser scanner provides a superior out-of-box experience and aggressive reading of linear bar codes, including those up to 58 cms away. For users that require hands-free scanning, the easy-to-assemble voyager 1250g stand increases throughput by incorporating automatic in-stand detection.

Features:

- Handheld laser scanner
- Outstanding scan performance on poor quality and damaged bar codes maintains productivity by providing a worry-free linear scanning solution that minimizes the need for manual data entry
- Class-leading presentation scanning increases throughput by providing object detection and automatic in-stand detection and configuration
- Superior out-of-box experience simplifies set up with tool-free stand assembly; automatic in-stand detection and configuration; and automatic interface detection and configuration
- Contemporary, ergonomic design ensures operator comfort and productivity by incorporating an integrated finger groove in a sleek, lightweight industrial design that fits well in most hands
- Codegate technology enables users to ensure that the desired bar code is scanned before transmitting data, making the scanner ideal for use in menu scanning applications
- Multi-interface design minimizes costs by delivering support for usb, keyboard wedge, and rs232 interfaces in a single scanner
