Specifications

Overview:

The equip Cable Tester is a handy device that quickly diagnoses the configuration of network, modular, and USB cables. With the LED displays on both master and remote unit, you can easily read the condition of the connection. Moreover, the remote unit is designed to attach to the master, and hence you can easily carry them together without damage.

Features:

- Including master and remote unit
- Tests shielding, transmission, short circuit and wiring errors
- Extensive diagnostic display for pin-out and pair display for RJ45, USB, RJ11/RJ12, BNC, coaxial, RCA and modular cables
- Tests 4/6/8 pin patchcables (RJ11/12/45) as well as installed cables up to 100m
- LED indicators for power and TX/RX
