LaCie USB2.0 A male mB male 1.2m Flat Cable

Product Overview

LaCie USB2.0 Flat Cable A male mB male 1.2m

Specifications

Overview:

With the new LaCie Flat Cables designed by item, it's easy to find the interface you need. Our new range includes seven different interfaces: USB A to B; USB A to Mini B; USB A male to A female; FireWire 400 to FireWire 400; FireWire 400 to FireWire 800; FireWire 800 to FireWire 800; and eSATA to eSATA. Each cable is perfect for connecting of your external devices, such as hard drives, CD/DVD writers, printers, cameras, and cell phones. The LaCie Flat Cables come in different colors according to their interfaces, and a fun, whimsical design by item, a French design firm, ensures that they'll make a statement on your desktop. Since the cables are flat, they are easy to coil and to carry you'll never have to deal with another tangle of wires behind your desk or in your laptop bag! Each cable comes with 24 adhesive labels, so you can customize your cables and always know which device is plugged in.
