Norton Anti-Virus 2013 - 1 user

Product Overview

Norton Anti-Virus 2013 - 1 user, DVD Pack

Specifications

Overview:

- Protects your PC against the latest viruses, spyware, and other threats.
- Delivers fast, powerful online protection to keep you a step ahead of cyber attacks.
- Lets you chat, email and share files without worry.
- Updates automatically, offers easy-to-use features and includes free customer support during your subscription period.

Features:

- Norton Protection System - Our five patented layers of protection detect and eliminate threats more quickly and accurately than other technologies.
- Browser Protection - Proactively protects you by checking for and blocking online threats as your browser loads, to stop online threats before they can do damage.
- SONAR Behavioural Protection & Live 24/7 Threat Monitoring - Stays ahead of, detects, and eliminates threats by watching your PC for suspicious activity.
- Threat-removal Layer - Targets and eliminates hard-to-remove threats less sophisticated products often miss.
- Insight - Improves performance by identifying safe files and only scanning unknown files.
- Download Insight 2.0 - Protects you from dangerous applications before you install them by telling you if they are harmful or unstable.
- Always Up-to-date Product Version - Norton automatically sends you important product and feature updates throughout the year. The latest version installs without you needing to do anything.
- FREE SUPPORT 24/7 - Offers you expert help and answers by phone, live chat or online, whenever you need them.
- Norton Management - Cloud-based controls let you fix, update, renew and install Norton AntiVirus over the Internet with a few simple clicks. It brings together your available Norton protection for other devices, like your Mac computer, smartphone or tablet, in one place.
- Bandwidth Management 2.0 - Automatically adjusts Norton data usage updates when you connect to 3G networks to avoid using up your monthly data allotment or causing overage fees.
- Vulnerability Protection - Stops cybercriminals from using security holes (vulnerabilities) in applications to sneak threats onto your PC.

- Norton Pulse Updates - Updates your protection every 5 to 15 minutes, without disrupting you.
