Mellerware Breede 360 degrees Cordless Black & White 2L Plastic Kettle

Specifications

About this product

The Mellerware Breede 360degrees Cordless Kettle offers a practical 2.0 litre capacity and 2200W power for fast everyday boiling. Its durable plastic housing, concealed heating element, 360degrees rotational swivel base, automatic shut-off and boil-dry protection make it a convenient choice for home and office kitchens. Buy this Mellerware Breede kettle from our website for quick delivery in South Africa.

Overview Summary

The Mellerware Breede 22600BL is a 2.0 litre cordless electric kettle designed for convenient everyday hot water preparation. Its 2200W power rating provides the electrical power required for boiling water, while the durable plastic housing is designed for regular kitchen use.

The cordless design uses a 360degrees rotational swivel base for flexible placement and handling. The concealed heating element helps keep the heating system enclosed, while integrated cord storage helps keep the countertop area organised. Automatic shut-off and boil-dry protection provide important safety functions during operation.

Performance tier:Everyday household

Uses:Boiling water, tea, coffee, hot beverages, cooking preparation, home kitchens, office kitchens

Overview

The Mellerware Breede 22600BL is a practical 2L cordless plastic kettle in sleek Black & White finish, designed for families and offices needing larger water capacity. With a powerful 2200W heating element, it delivers rapid boiling for multiple cups of tea, coffee, or hot beverages. The 360degrees cordless base allows convenient removal and pouring from any angle, while the concealed heating element and permanent filter ensure easy cleaning and pure-tasting water. Dual water windows, pull-up lid, and illuminated indicator light enhance everyday convenience. Safety features include boil-dry protection and automatic shut-off, making it a reliable, worry-free choice for South African kitchens. Locally produced for quality and affordability.

Description

The Mellerware Breede 22600BL is a cordless electric kettle with a 2.0 litre capacity, providing a practical volume for preparing hot water for everyday household and office requirements. With a 2200W power rating and a 220-240V AC 50Hz power

supply, it is designed for standard electrical operation.

The kettle features a durable plastic housing and a concealed heating element for a practical and easy-to-use design. The 360degrees rotational swivel base allows the kettle to be positioned on the base from different directions, making it convenient to lift and replace after use. Integrated cord storage helps reduce loose cable clutter around the kettle.

Safety features include automatic shut-off and boil-dry protection. Automatic shut-off is designed to switch the kettle off after boiling, while boil-dry protection helps provide protection if the kettle is operated without sufficient water. The 2.0 litre capacity makes the Breede suitable for preparing multiple cups of tea or coffee and for general hot water requirements.

Features

The Mellerware Breede combines a practical capacity with a cordless design and essential safety functions for convenient everyday use.

- 2.0 litre capacity: Provides a practical amount of hot water for everyday household and office use.
- 2200W power: Provides the rated electrical power for boiling water.
- Cordless design: Allows the kettle to be lifted from its base without handling a permanently attached power cord.
- 360degrees rotational swivel base: Allows flexible positioning of the kettle on its base.
- Durable plastic housing: Provides a practical housing for regular everyday use.
- Concealed heating element: Keeps the heating element enclosed within the kettle.
- Automatic shut-off: Automatically switches the kettle off after boiling.
- Boil-dry protection: Provides a safety function against operation when there is insufficient water.
- Integrated cord storage: Helps keep the power cord organised when the kettle is stored.
- 220-240V AC 50Hz power supply: Designed for the stated electrical supply specification.
