24HFL2869T/12

Philips 24HFL2869T 24" Professional TV

Product Overview

Philips 24HFL2869T 24" Professional TV, DVB-C/T/T2 HEVC, RF, black, HD, HDMI , low power consumption, USB, configurable welcome page, USB Cloning TVs, Off line channel editor for PC, menu locking, volume control

Specifications

Features:

Greet your guests with a customizable welcome page
A welcome page is displayed each time the TV set is switched on. The welcome page can be branded and customized easily at the time of installation via a simple welcome image in .png format.

USB cloning of all settings for quick installation
Provides the ability to easily copy all programming and channel programming settings from one TV into other TV sets in less than a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

USB for multimedia playback
Share the fun. Connect your USB memory-stick, digital camera, mp3 player or other multimedia device to the USB port on your TV to enjoy photos, videos and music with the easy to use onscreen content browser.

LED TV for images with incredible contrast
With LED backlight you can enjoy low power consumption and beautiful images with high brightness, incredible contrast and vibrant colors

Ideally suited for prisons
To control communication, this Hospitality TV is equipped with a specific PrisonMode setting. This Advanced Security Mode switches off certain settings not demanded by the detention market like Teletext, Electronic Programme Guide, Subtitles and USB ports.

One combined channel list for Analog and Digital channels
One integrated channel list for digital and analogue channels. This allows the guest to zapp seemless between Analogue and Digital channels.

Advanced volume control to avoid guest disturbance

With advanced volume control you can install the start-up volume of the TV and predifine the volume range with which the TV set is allowed to operate, preventing excessive volume adjustments and avoiding disturbance of next door guests.

Prevent unauthorized use by joystick control locking
By disabling or enabling the joystick control locking, the administrator can prevent unauthorized use of the TV via the joystick, saving the hotelier overheads.

Installation menu locking
Prevents unauthorized access to installation and configuration settings, to ensure maximum guest convenience and avoid unnecessary reinstalling costs.

Low power consumption
Philips TVs are desgined to minimize power consumption. This will not only reduce environmental impact but also lower operating costs.
