Product Overview

LG 24MK400H-B 24" Wide LED LCD Monitor, 16:9 HD Format, 1920x1080, 2ms Response Time, 1000:1 Typical Contrast Ratio, 250cd/m² Brightness - D-SUB, HDMI, VESA Wall-mountable - Black

Specifications

Features:

Full HD Display
You're in front of your monitor for hours on end. Make the most of your time, with an LG Full HD LED monitor. The clarity of 1080p pixel resolution is a game-changer. Simply put, everything looks more detailed than standard HD.

Clearer, Smoother Gaming
Radeon FreeSync reduces the tearing and stuttering that occur between a graphic card's frame rate and a monitor's refresh rate enabling smoother motion and less stuttering in demanding games.

Dynamic Action Sync
Minimize input lag with Dynamic Action Sync so you can catch every single moment in real-time.

Black Stabilizer
Keep visibility even in dark scenes. LG's Black Stabilizer senses dark scenes and helps make it brighter so that you can find the enemies hiding and waiting to attack your player in the dark.

On-Screen Control
On-Screen Control puts a host of essential monitor settings into a handy window for quick, easy access. Volume, brightness, picture mode presets, Screen Split 2.0 and Dual Controller and more can now be adjusted with just a few clicks of the mouse, instead of hard buttons on the monitor.

Wall Mountable
This monitor gives you the freedom to take it off the desk and hang it on the wall. Liberate your viewing options and save desktop space with this wall-mountable LG monitor.

ENERGY STAR®
ENERGY STAR® certified monitors meet stringent energy efficiency requirements set by the US Environmental Protection

Agency in On, Sleep, and Off Modes. On average, monitors that have earned the ENERGY STAR® are 25% more energy efficient than standard options.
