Lexmark MarkNet N8130 Fiber Ethernet 100BaseFX, 10BaseFL

Product Overview

Lexmark MarkNet N8130 Fiber Ethernet 100BaseFX, 10BaseFL

Specifications

Overview:

Printing on ultra secure fiber networks

Features:

Network Communications Security

SNMPv3 supports encrypted and authenticated management traffic protecting remote configuration and device status messages.IPSec can be used with both TCP/IP IPv4 and IPv6 networks and provides encryption and authentication of communications at the network layer.

Network Protocol Support

MarkNet print servers and the standard Ethernet connection support these protocols: TCP/IP IPV4, TCP/IP IPv6, Novell (IPX/SPX including NetWare Directory Services), AppleTalk and LexLink (DLC/LLC). All protocols can be active simultaneously. Simultaneous protocol support allows you to print from different systems without reconfiguring the print server.

Embedded Web Page

The embedded web page allows administrators to flash update printer firmware or access printer settings using a web browser to easily monitor printer status and change default settings.
