Gigabyte Aivia Krypton Dual Chassis Gaming Mouse

Product Overview

Gigabyte Aivia Krypton Dual Chassis Gaming Mouse

Specifications

Overview:

The Aivia Krypton gaming mouse features a revolutionary new dual mouse chassis design which allows for a hot-swappable mouse chassis giving the user unparalleled freedom by changing fundamental mouse movement and dynamics to best fit the application at hand. Aivia Krypton further enables maximum control and flexibility by giving users the option to customize the center of gravity and weight of the mouse. GHOST Macro engine with built-in 32KB memory for onboard Macro memorization and gaming on the go.

Features:

Speed Chassis
The Speed Chassis features an abrasion-free ceramic foundation focused on quick movements, immediate reaction, and extraordinary speed.

Control Chassis
The Control Chassis utilizes an ultra smooth Teflon foundation which ensures precision movements for maximum control.

Maximize your Krypton with Krypton Mat
Krypton dual-sided mouse pad was developed simultaneously with Krypton gaming mouse. It features two distinctive surfaces to fit all type games.

Customizable Center of Gravity
Revolutionary weight distribution system allows user to adjust the center of gravity for maximum control and flexibility.

Weight Adjustment Case

- 1.8g/5.3g weights allows you to adjust to the optimal weigh and balance
- Weigh increase 1.8g ~ 39g
- 35 weight adjustable combination

Intuitive GHOST™ Macro Engine
GHOST™ macro engine which features intuitive interface allows you to pre-define and switch between keys or buttons easily for latest PC gaming titles.

5 gaming profiles on the go
Profile switch at your fingertips enables you to switch between 5 different gaming profiles. Up to 70 macros memorization for the gamer on the go.

Top of the line laser sensor
Advanced laser sensor supports up to 8200dpi resolution and 150ips tracking speed.

Quick switch between right-hand and left-hand mode
Press and hold both profile switch buttons for 3 seconds, the mouse will be switched between Left-Hand and Right-Hand operation modes.

Best for 4K (UHD) Monitor Devices
With GIGABYTE 4K Best Mice, you can control your characters easily with your UHD (3840 x 2160) monitor, without moving your mouse several times just to reach the target.
