Manhattan Full Speed USB to Parallel Printer Converter

Product Overview

Manhattan Full Speed USB to Parallel Printer Converter-A Male to DB25 female-Connects USB-equipped computers with DB25 parallel peripherals, Retail Box. SKU: 336581; USB to DB25 female; USB 1.1 compliant; Data transfer: 1.2 Mbps; Bus powered; Plug and Play installation;

Specifications

Overview Summary

Manhattan Full Speed USB to Parallel Printer Converter

The Manhattan USB to Parallel Printer Converter provides an easy way to connect USB-equipped computers to DB25 parallel printers and peripherals. Featuring bi-directional data transfer, this adapter enables seamless USB-to-parallel and parallel-to-USB communication.

Designed for reliability and convenience, the converter is bus powered and requires no external supply. Its plug and play design, combined with Windows compatibility, ensures quick setup and stable operation. Ideal for offices, schools, and home users needing to link modern USB ports to legacy parallel devices.

Performance tier: Entry-level connectivity

Uses:USB to parallel printing, Legacy device connection, Home and office peripherals

Overview

The Manhattan Full Speed USB to Parallel Printer Converter allows users to link modern USB-equipped desktops or laptops with legacy DB25 parallel printers and peripherals. Featuring full USB 1.1 compliance, the adapter ensures devices operate at their best available performance without the need for additional configuration.

With support for data transfer speeds up to 1.2 Mbps, the converter is well suited for office environments, home setups, or educational institutions that still depend on parallel printers or devices. Its plug and play design makes installation straightforward, creating a virtual USB printer port automatically.

Description:

Easily connects USB-equipped computers with DB25 parallel peripherals.

The MANHATTAN USB to Parallel Printer Converter with bi-directional data transfer easily supports USB-to-parallel and parallel-to-USB communication. Ideal for connecting USB-equipped desktop or notebook computers to a parallel printer or adding a DB25 female port, it helps deliver faster data transfer rates than a standard parallel port.

Meets USB Standards

The MANHATTAN USB to Parallel Printer Converter is fully compliant with USB 1.1 specifications to help devices operate at maximum performance. Bus support and low power requirements permit its convenient and reliable use almost anywhere without the need for external power supplies.

Quick and Easy Installation

Plug and Play capability and Windows compatibility help the MANHATTAN USB to Parallel Printer Converter to function on any USB-equipped computer or device. Installs as a Virtual USB Printer Port, the need of any further configuration is eliminated.

Features:

- Converts USB signals for use with IEEE 1284 devices - supports data transfer speeds up to 1.2 Mbps
- Ideal for connecting a computer USB port to parallel printer
- Bus power support requires no external power supply
- Plug and Play installation; Windows compatible

What's in the Box

- Manhattan USB to Parallel Printer Converter (USB A male to DB25 female)
- User documentation
- Retail packaging

Specifications

- SKU: 336581
- Model: Manhattan USB to Parallel Printer Converter
- Connector A: USB Type A Male
- Connector B: DB25 Female (parallel)
- Standards: USB 1.1 compliant
- Data transfer rate: Up to 1.2 Mbps
- Compatibility: Windows Plug and Play installation
- Power: Bus powered, no external supply required
- Function: Converts USB to IEEE 1284 parallel communication
- Package: Retail box
