Description

The Mellerware 35405 heater converts electrical energy into direct radiant heat using four quartz tubes, providing fast and efficient warmth for indoor spaces. Wide-angle reflectors ensure heat spreads evenly, covering a larger area for optimal comfort. The cool-touch plastic housing allows safe handling during operation, and the integrated carry handle enhances portability.

Safety is a priority with a tip-over cut-out switch that automatically powers off the unit if knocked over. With simple knob controls, users can select either 800 W for energy-saving warmth or 1600 W for maximum heat output. Its quiet operation and

low maintenance make it ideal for bedrooms, living rooms, and office spaces.
