Sharkoon PureWriter TKL Mechanical USB Keyboard with Blue LED illumination

Product Overview

Sharkoon PureWriter TKL Mechanical USB Keyboard with Blue LED illumination - 1000Hz MAX Polling Rate - Blue, Kailh Blue switches

Specifications

Overview:

With the PureWriter TKL, Sharkoon presents a purist keyboard for all occasions, which, in addition to its timeless elegance, stands out particularly though innovative mechanical switches in an ultra-flat design. Thanks to the missing number block, the frameless keyboard measures a compact 355 mm in length, 127 mm wide and only 23 mm in height when the feet are folded in, making it as flat as possible. With a weight of only 503 grams plus with two USB cables 50 cm and 150 cm in length, it is extremely easy to transport and can be used anywhere, whether on the go, at home or in the office.

Features:

PureWriter TKL - Compact, Light and Ultra-Elegant
With the PureWriter TKL, Sharkoon presents a purist keyboard for all occasions, which, in addition to its timeless elegance, stands out particularly though innovative mechanical switches in an ultra-flat design. Thanks to the missing number block, the frameless keyboard measures a compact 355 mm in length, 127 mm wide and only 23 mm in height when the feet are folded in, making it as flat as possible. With a weight of only 503 grams plus with two USB cables 50 cm and 150 cm in length, it is extremely easy to transport and can be used anywhere, whether on the go, at home or in the office.

Pure Typing Pleasure for Writers
Many writers particularly do not want to miss out on its blue switches. With a distance to actuation point of only 1.5 mm, plus detectable click and switching point, fatigue-free usage with a pleasant typewriter atmosphere is guaranteed. The flat height of the keyboard supports ergonomic use even without a palm rest. Thanks to its long operating life cycle of at least 50 million keystrokes, tens of thousands of pages can be typed - even in darkened surroundings by means of its infinitely adjustable, neutral blue LED lighting.

Pure Enjoyment for Gamers
Gamers can look forward to the multitude of lighting effects and the option to save the individual lighting set of every single key into five profiles. The PureWriter TKL naturally offers all the gaming essentials with n-key rollover, anti-ghosting keys and a polling rate of 1,000 Hz. The red switches also have a distance to actuation point of 1.5 mm and, even with the slightest

contact, will provide a valuable millisecond advantage during hectic game situations. Since they are completely feedbackless, you can easily sink into the game without any disruptions.
