Sharkoon Drakonia II Green Gaming Laser Mouse

Product Overview

Sharkoon Drakonia II Gaming Laser Mouse with adjustable weights - 15000 DPI Optical sensor, 12 programmable buttons + 4-way scroll wheel, USB Interface - Green, Retail Box

Specifications

Overview:

The dragon returns! The popular bestseller finally has a successor: the Drakonia II! Equipped with a high-performance sensor, 12 programmable buttons and a unique design, this is where the primeval encounters the modern, and the decisive battle awaits!

Features:

High Degree of Accuracy.
For targeted precision, the Drakonia II is equipped with a high-performance PixArt 3360 optical sensor with 15,000 DPI. Six customizable DPI levels can be selected. The DPI indicator, lit in white, shows which level is being currently used. Additional precision and agility is achieved thanks to the internally installed weight tuning system.

Diverse Maneuverability.
A wide range of maneuverability lies at your fingertips with a total of 12 programmable buttons. In contrast to the two thumb buttons of the original Drakonia, there are now six clearly arranged buttons on the left flank of the Drakonia II. These can also be illuminated within the RGB spectrum. Texturized thumb rests provide a secure hold and extra comfort.

Unique Design.
With the dragon-scale surface, the design of the Drakonia II is closely oriented to the originality of its predecessor. But now, due to the illumination of the thumb buttons, the scroll wheel and the Drakonia emblem, the dragon also gets a smoldering glow in up to 16.8 million colors. High-Performance Gaming Software. Whether it's the mouse sensitivity, the illumination or the macros, the downloadable gaming software enables access to a variety of strategic options.

Two Dragons, One Epic Battle.
Like its predecessor, the classic green Drakonia II is accompanied by a version wearing a skin of black dragon scales.

Specifications:

General	Max. DPI/CPI: 15,000
	Min. DPI/CPI: 100
	Sensor: Optical
	Chip: PixArt 3360
	Illumination: RGB
	Max. Polling Rate: 1,000 Hz
	Lift-Off Distance: 2 mm
	Frames Per Second: 12,000
	Inches Per Second: 250
	Max. Acceleration: 50 g
