Buy the Hisense 43E6Q online today for a compact 4K Smart TV solution.

Overview Summary

Hisense 43E6Q 43-inch 4K UHD Smart LED TV

The Hisense 43E6Q delivers detailed 4K UHD picture quality at 3840 x 2160 resolution on a Direct LED display. Its 8-bit + FRC colour depth supports smoother colour transitions, while the 60Hz refresh rate provides a suitable balance for everyday

television, streaming and gaming.

The VIDAA U7.6 smart platform provides access to smart entertainment services, while Dolby Audio and DTS Virtual:X enhance the audio experience. Game Mode Plus combines Auto Low Latency Mode and Variable Refresh Rate for a more responsive gaming experience. Dual-band Wi-Fi, Bluetooth, HDMI 2.0 with eARC and USB connectivity provide flexible options for connected entertainment devices.

Performance tier:Entry-level 4K Smart TV

Uses:Streaming, television viewing, movies, series, sports, console gaming, bedroom entertainment, living room entertainment

Overview

The Hisense 43E6Q is a compact 43-inch 4K UHD TV designed for bedrooms, small living rooms, and budget-conscious buyers who want better color than standard LED panels. It uses a Direct LED backlight with QD-enhanced color (8-bit + FRC) to deliver smoother gradients and more vibrant, accurate hues than conventional LED TVs, while 4K resolution (3840x2160) ensures sharp detail for streaming, gaming, and broadcast TV. It runs Hisense's VIDAA U7.6 smart system with built-in apps like Netflix, YouTube, Prime Video, Disney+, and more, plus voice control and casting features depending on region. Audio is handled by a 2x8W (typical) speaker system with Dolby Audio and DTS Virtual:X, which simulates a more immersive, multi-dimensional soundstage from a 2-channel setup.

Description

The Hisense 43E6Q combines 43-inch screen size with 4K UHD resolution for detailed home entertainment in a practical format. The 3840 x 2160 resolution provides four times the pixel count of Full HD, making compatible movies, series, sports and other content appear sharp and detailed. Direct LED technology provides the display backlight, while 8-bit + FRC colour depth supports smoother tonal transitions across compatible content.

The VIDAA U7.6 smart platform turns the television into a connected entertainment hub. With compatible streaming applications and smart features available through the platform, users can access entertainment without relying solely on external media devices. Dual-band Wi-Fi supports both 2.4 GHz and 5 GHz wireless networks, while Bluetooth provides convenient wireless connectivity for compatible devices.

For gaming, Game Mode Plus includes Auto Low Latency Mode and Variable Refresh Rate support. These features are designed to reduce unnecessary processing delay and help maintain smoother gameplay with compatible consoles and gaming devices. The TV also supports HDMI 2.0 connectivity, including eARC for compatible audio equipment.

Audio is supported by Dolby Audio and DTS Virtual:X technologies, providing enhanced sound processing for television, movies, music and gaming. The combination of smart functionality, 4K resolution, wireless connectivity and gaming features makes the Hisense 43E6Q suitable for bedrooms, apartments, smaller living rooms and general home entertainment.

Features

The Hisense 43E6Q combines 4K picture quality, smart entertainment and gaming connectivity in a compact 43-inch television.

- 4K UHD resolution: 3840 x 2160 resolution provides detailed and sharp picture quality.
