Uses:Video conferencing, Microsoft Teams meetings, Zoom calls, office communication, remote work, desktop audio, business collaboration

Overview:

Dell Pro Premium Conferencing SoundBar SB725

Experience professional-quality conferencing with the Dell Pro Premium Conferencing SoundBar SB725 . Designed for modern workspaces, this premium wired soundbar combines AI-powered noise cancellation, echo reduction, and high-performance speakers to deliver outstanding voice clarity during meetings and calls. Whether you're collaborating from the office or working remotely, the SB725 helps ensure every conversation sounds natural and distraction-free.

Description:

The Dell Pro Premium Conferencing SoundBar SB725 is built for professionals who need reliable, crystal-clear audio for video conferencing and online collaboration. Equipped with AI-based noise cancellation, echo cancellation, and powerful 52 mm speakers, it enhances both incoming and outgoing audio for a more productive meeting experience. Its compact design integrates neatly with compatible Dell monitors, helping maintain a clean and organized workspace while delivering premium conferencing performance.

Features:

Why Choose the Dell SB725

The SB725 has been engineered to improve every conference call by enhancing speech clarity while minimizing unwanted background noise. Dual-directional AI technology identifies human voices and suppresses surrounding distractions, allowing participants on both ends of the conversation to communicate more effectively.

Echo cancellation further improves audio quality by eliminating acoustic feedback and distortion, resulting in smooth, natural conversations without interruptions.

High-performance speaker drivers provide balanced sound that makes voices easier to understand while also delivering enjoyable audio for multimedia playback.

Designed for a Cleaner Workspace

The Dell Pro Premium Conferencing SoundBar SB725 attaches easily to compatible Dell monitors using a magnetic mounting system, reducing desktop clutter and simplifying installation. With compatibility across more than 40 Dell monitor models, it integrates seamlessly into many existing Dell workstation setups.

ComX Computers

Product Specification Sheet

Its short 150 mm USB cable keeps cable management tidy while maintaining a professional-looking workspace.

Optimized for Business Collaboration

The SB725 is designed for today's hybrid workplace and works seamlessly with leading unified communications platforms.

Compatibility includes:

- Microsoft Teams certified
- Zoom certified
- Broad compatibility with major UC platforms
- Ideal for business meetings, virtual collaboration, webinars, and remote work

Customize Your Listening Experience

Using Dell Display and Peripheral Manager, users can personalize audio settings to match different tasks and preferences.

Available audio options include:

- Speech mode
- Bass Boost
- Treble Boost
- Custom equalizer profiles
- Sound notification controls
- Firmware updates

IT administrators can also simplify large-scale device deployment and management using Dell Device Management Console, helping organizations efficiently manage Dell peripherals from a centralized cloud-based platform.

Technical Details
