

520-BBNM

Dell EB525 Pro Plus Earbuds

Product Overview

Dell 520-BBNM EB525 Pro Plus Earbuds, Hearing protection, Active Noise Cancellation, Wireless Charging, USB charging, Bluetooth pairing, 24 cm cable length, 30m Wireless operating distance, Microsoft Teams certification, Ai-powered, Up to 5hrs Battery talk time, 11.6 mm Driver size, MEMS Microphone Technology, Integrated Microphone, USB Type-C charging Interface, Water resistant, Dust resistant

Specifications

Overview Summary:

The Dell Pro Plus EB525 earbuds are built for professionals who need clear sound and reliable performance throughout the workday. With AI-powered noise cancellation and Adaptive ANC, these wireless earbuds help you stay focused on calls and music whether you're at home, in the office, or on the move.

Designed for comfort and productivity, they offer seamless Bluetooth connectivity, fast charging, and Microsoft Teams certification for smooth communication. Durable, compact, and easy to use, the Dell Pro Plus EB525 earbuds are a smart choice for modern work setups. Buy now and upgrade your everyday audio experience.

Performance tier:Professional-grade

Uses:work calls, online meetings, remote work, music listening, travel, daily commuting

Overview:

Dell Pro Plus Earbuds EB525

Redefine audio clarity with an AI based noise cancelling microphone and adaptive active noise cancellation, designed for modern professionals who need reliable sound quality across calls, music, and hybrid work environments. Built for focus and flexibility, these true wireless earbuds deliver clear communication, intelligent noise control, and seamless connectivity whether you are working from home, in an open office, or on the move.

Description:

The Dell Pro Plus Earbuds EB525 combine AI powered voice isolation, adaptive active noise cancellation, and certified Microsoft Teams performance to support clear, distraction free communication. With Bluetooth 5.3 multi point connectivity, fast charging, wireless charging support, and a comfortable in ear design with multiple ear tip sizes, these earbuds are ideal for professionals who need dependable audio, smart controls, and all day comfort across multiple devices.

Features:

Clear communication in any workspace

Experience consistent voice clarity thanks to an AI based noise cancelling microphone that is engineered to recognise your voice and reduce background distractions. This intelligent voice filtering ensures calls sound natural and professional even in busy environments such as open offices or shared workspaces.

ComX Computers

Product Specification Sheet

AI powered voice precision

The integrated MEMS microphone technology works with advanced voice processing to separate speech from surrounding noise. Compared to standard earbud microphones, this approach delivers noticeably improved call quality for meetings, virtual collaboration, and everyday conversations.

Certified for professional calls

These earbuds are certified for Microsoft Teams open office environments and also support Zoom, making them a reliable choice for business communication. Voice isolation technology helps ensure your message is heard clearly while minimising nearby noise for your audience.

Adaptive noise control for focus or awareness

Switch easily between adaptive active noise cancellation and enhanced transparency mode using intuitive touch controls. Adaptive ANC automatically adjusts to your surroundings, while transparency mode allows natural ambient sound when you need to stay aware of what is happening around you.

Simple touch controls

On device controls let you answer or reject calls, manage music playback, adjust volume, and toggle noise modes with simple gestures, keeping your workflow smooth and uninterrupted.

Comfort designed for long days

Four ear tip sizes help create a secure and comfortable fit for extended use. The in ear design supports effective noise isolation while remaining comfortable enough for all day wear. Water and dust resistance add durability for everyday use.

Reliable wireless connectivity

Bluetooth 5.3 delivers faster, more stable connections and supports pairing with up to eight devices, with two connected at the same time. This makes it easy to switch between your laptop, phone, and other devices without interruption.

Seamless Dell ecosystem integration

Dell Pair allows instant connection with compatible Dell laptops and desktops, creating a streamlined experience across your Dell devices. The Dell Display and Peripheral Manager provides centralised control and optimisation for supported peripherals.

Personalised audio control

Using the Dell Audio mobile app, users can customise sound profiles, adjust equaliser settings, manage controls for calls and media, update firmware, and locate misplaced earbuds using the Find My Earbuds function.

Built for productivity and manageability

IT teams can manage these earbuds at scale through the Dell Device Management Console, improving efficiency with cloud based oversight and expanded command line interface support.

Battery performance that keeps up

Enjoy up to 5 hours of talk time or 8 hours of listening time with active noise cancellation enabled on the earbuds alone, with extended use available through the charging case. Fast charging delivers quick power boosts to keep you moving through your day.

Compatibility and platform support

The earbuds are compatible with Windows 10, Windows 11, iOS, Android, and macOS, making them a flexible audio solution for mixed device environments.

Specifications	
Product Code	520-BBNM
Technical Information	
Connectivity Technology	True Wireless
Wireless Technology	Bluetooth
Cable Length	24 cm
Wireless Operating Distance	30m
Bluetooth Standard	Bluetooth 5.3
Minimum Frequency Response	20 Hz
Maximum Frequency Response	20 kHz
Features	Hearing Protection
	Adaptive Active Noise Cancellation
	Wireless Charging
	USB Charging
	Bluetooth Pairing
Noise Canceling	Yes
Fast Charging	Yes
Microsoft Teams Certification	Yes
Zoom Certification	Yes
Active Noise Canceling (ANC)	Yes
Charging Method	Cable
	Case
AI-powered	Yes
Maximum Number of Paired Devices Supported	8
Maximum Number of Simultaneous Connections	2
Voice Processing Unit (VPU)	Yes
Battery Information	
Battery Capacity (Earbuds)	66 mAh
Battery Capacity (Charging Case)	500 mAh
Fast Charging Time	5 Minute
Battery Talk Time Details	Up to 5hrs (ANC On - Earbuds)
	Up to 16.5hrs (ANC On with charging case)

ComX Computers

Product Specification Sheet

Battery Listening Time Details	Up to 8hrs (ANC On - Earbuds)
	Up to 33hrs (ANC On with charging case)
Battery Recharge Time Details	Fast Charging Time: 5 mins = 1 hr
	Maximum Battery Recharge Time:
Battery Chemistry	Lithium Polymer (Li-Polymer)
Earpiece	
Driver Size	11.6 mm
Signal to Noise Ratio (SNR)	66 dB
Earpiece Sensitivity Details	106 +/- 2dB @ 1kHz/1mW
Microphone	
Microphone Technology	MEMS Technology
Integrated Microphone	Yes
Microphone Frequency Response	100 Hz to 8 kHz
Microphone Sensitivity (dBFS)	-35 +/- 1 dBFS
Interfaces/Ports	
Charging Interface	USB Type-C
	Wireless
Controls/Indicators	
Earpiece Controls	Volume Up/Down
	ANC on/off/Enhanced Transparency mode
	Answer/reject call
	Mic on/off
	Next/Previous track
Software	
Software Included	Dell Display and Peripheral Manager
	Dell Device Management Console
	Dell Audio Mobile App
	Dell Pair
Power Description	
Minimum Charging Power	2.50 W
Maximum Charging Power	5 W
Physical Characteristics	
Durability	Water Resistant
	Dust Resistant
Form Factor	In-ear
Height	32.22 mm
Width	24.58 mm
