625443 Special

EQUIP 625443 Green CAT6E PATCH 0.25m Network Cable

Product Overview

EQUIP 625443 Green CAT6E PATCH 0.25m Network Cable. Stranded 26AWG with 100MHz performance, Gold Plated contacts for best connection, molded assemblies with great strain relief properties, PVC jacket for flexibility and durability, ISO/IEC 11801, EN50288

Specifications

About this product

The EQUIP 625443 Green CAT6E PATCH 0.25m Network Cable delivers reliable, high-speed data transmission with stranded 26AWG conductors and 100MHz performance. Designed with gold-plated contacts and molded assemblies, it ensures secure connections and excellent strain relief. The flexible PVC jacket provides durability while maintaining flexibility, fully compliant with ISO/IEC 11801 and EN50288 standards.

Overview Summary

Product:EQUIP 625443 Green CAT6E PATCH 0.25m Network Cable

The EQUIP 625443 CAT6E Patch Cable offers robust network connectivity for homes and offices. Its 26AWG stranded conductors support high-speed data transfer up to 100MHz, making it suitable for modern networking requirements. Gold-plated contacts reduce signal loss and enhance connection stability, while molded connectors with strain relief protect against wear and damage.

The PVC jacket ensures flexibility and long-term durability, allowing easy routing in tight spaces and consistent performance. Fully compliant with ISO/IEC 11801 and EN50288 standards, this cable is ideal for structured cabling systems, data centers, and network installations where reliability is essential.

Performance tier: High-performance

Uses: Ethernet networking, LAN connections, home networking, office networking, patching servers

Overview

The equip Cat.6 U/UTP Patch Cable is composed of preeminent materials and fully-examined to conform with industrial standards. Offering higher bandwidth and better signal-to-noise margin, the Cat.6 cable is able to deliver ultrahigh and error-free performance in the most demanding network environments.

Description

The EQUIP 625443 Green CAT6E PATCH 0.25m cable is engineered for stable, high-speed Ethernet connections. Its stranded 26AWG wiring allows efficient data transmission, reducing crosstalk and interference. The gold-plated contacts guarantee optimal connectivity, while molded assemblies with strain relief prevent bending or connector damage. Flexible PVC jacket design makes installation in tight or crowded spaces simple and long-lasting.

Features

Key benefits and features of the EQUIP 625443 CAT6E PATCH Cable:

- Stranded 26AWG conductors for high-speed 100MHz data transfer
- Gold-plated connectors for enhanced signal quality and durability
- Molded assemblies with excellent strain relief to prevent cable damage
- Flexible PVC jacket ensures long-term durability and easy routing
- Compliant with ISO/IEC 11801 and EN50288 for reliable network performance
- Compact 0.25m length ideal for patching and short connections

What's in the Box

- 1 x EQUIP 625443 Green CAT6E PATCH 0.25m Network Cable

Specifications

- Length: 0.25m
- Color: Green
- Conductor: Stranded 26AWG
- Frequency: 100MHz
- Connector: RJ45 with gold-plated contacts
- Jacket: PVC, flexible and durable
- Standards: ISO/IEC 11801, EN50288
- Assembly: Molded connectors with strain relief

FAQ

What is the maximum data frequency of the EQUIP 625443 CAT6E cable?

The cable supports data transmission up to 100MHz, suitable for most high-speed Ethernet networks.

Is this cable suitable for home and office networking?

Yes, the cable is ideal for LAN, Ethernet, and patch connections in both home and office environments.

What makes the gold-plated connectors important?

Gold-plated contacts enhance signal quality, reduce interference, and provide longer-lasting, reliable connections.

Can this cable handle tight bends or frequent movement?

Yes, the molded connectors with strain relief protect against damage from bending, while the flexible PVC jacket allows easy routing.

Is the EQUIP 625443 cable standards compliant?

Yes, it meets ISO/IEC 11801 and EN50288 standards for structured cabling systems and professional networking setups.
