Goobay 3.5mm Jack to RCA Audio Adapter 2m Cable

Product Overview

Goobay 3.5mm Jack to RCA Audio Adapter 2m Cable; 1 x 3.5mm male stereo jack; 2 x RCA male connectors; left and right audio channels; gold-plated contacts; pure copper conductors; aluminium foil shielding; textile braided jacket; aluminium connector housings; 28 AWG; 3.3mm cable diameter; black and grey

Specifications

About this product

The Goobay 65288 3.5mm Jack to RCA Audio Adapter Cable is a 2m stereo audio cable designed to connect smartphones, laptops, PCs and other devices with a 3.5mm audio output to amplifiers, speakers, televisions and soundbars with RCA inputs. Featuring 1 x 3.5mm stereo male connector and 2 x RCA male connectors for left and right audio channels, this Goobay Plus cable offers gold-plated contacts, pure copper conductors, aluminium foil shielding and a flexible textile cable jacket. Buy this 2m Goobay audio adapter cable online for convenient stereo audio connectivity in your home or office in South Africa.

Overview Summary

Goobay 65288 2m 3.5mm to RCA Stereo Audio Cable

The Goobay 65288 is a stereo audio adapter cable that connects devices equipped with a 3.5mm headphone or audio output to audio equipment featuring left and right RCA inputs. It is suitable for connecting compatible smartphones, laptops, desktop computers and other audio sources to amplifiers, powered speakers, televisions and soundbars.

Part of the Goobay Plus series, this 2m cable features gold-plated connectors, aluminium connector housings, pure copper conductors and aluminium foil shielding. The flexible textile outer jacket and reinforced bend protection support everyday handling, while the red and white RCA connectors help identify the left and right stereo channels for straightforward installation.

Performance tier:Standard stereo audio connectivity

Uses:Connecting laptops to amplifiers, connecting compatible smartphones to RCA audio systems, connecting PCs to stereo speakers, connecting audio sources to televisions with RCA inputs, connecting compatible devices to soundbars, home audio systems and receivers

Overview

The Goobay Plus series comes in a slim, elegant metal design in Sharkskin Grey. The RCA cable is your simple solution for transmitting crystal-clear sound from smartphones, laptops or home cinema systems - for easily enjoying film and music in superior quality.

Description

The Goobay 65288 3.5mm Jack to RCA Audio Adapter Cable provides a practical solution for connecting audio devices with a standard 3.5mm stereo output to equipment with two RCA audio inputs. Its connector arrangement makes it suitable for a variety of home entertainment and desktop audio setups where analogue stereo audio connectivity is required.

The cable features a 3-pin 3.5mm stereo male plug on one end and two RCA male plugs on the other. The RCA connectors carry the left and right audio channels, with red and white colour coding to simplify identification during installation. This configuration is commonly used with compatible amplifiers, stereo receivers, powered speakers and other audio equipment with RCA inputs.

Measuring 2m in length, the cable provides flexibility when positioning connected devices on a desk, entertainment unit or audio shelf. Its pure copper inner conductors and aluminium foil shielding are designed for audio signal transmission, while the gold-plated contacts help resist corrosion. The slim metal connector housings and bend protection support regular connection and disconnection.

The Goobay Plus cable features a textile braided outer jacket in a black and grey colour scheme. This flexible covering helps make the cable convenient to handle and route around typical home or office audio equipment. Before purchasing, check that the source device has a compatible 3.5mm stereo audio output and that the receiving equipment has a pair of analogue RCA audio inputs.

Features

The Goobay 65288 stereo audio cable combines practical connectivity with durable connector construction for compatible home and office audio systems.

- 3.5mm stereo to dual RCA: Connects a compatible 3.5mm audio output to two RCA audio inputs for left and right stereo sound.
- 2m cable length: Provides convenient reach between connected audio devices.
- Gold-plated contacts: Help resist corrosion and support reliable electrical contact.
- Pure copper conductors: Provide the internal conductive path for analogue audio signals.
- Aluminium foil shielding: Helps protect the audio signal from electromagnetic interference.
- Textile braided jacket: Offers a flexible outer covering designed for convenient handling.
- Aluminium connector housings: Provide a slim metal finish for the connectors.
- Red and white RCA plugs: Make it easier to identify the left and right stereo channels.
- Bend protection: Helps reduce strain around the connector ends during normal use.
- Broad audio applications: Suitable for compatible laptops, PCs, smartphones and other devices with 3.5mm audio outputs, connected to equipment with RCA inputs.

What's in the Box

- 1 x Goobay 65288 2m 3.5mm stereo to dual RCA audio adapter cable

Specifications

- Brand: Goobay
- Product model: 65288
- Product series: Goobay Plus
- Product type: Stereo audio adapter cable
- Connector 1: 1 x 3.5mm male stereo jack, 3-pin
- Connector 2: 2 x RCA male connectors
- Audio channels: Left and right stereo
- Cable length: 2m
- Inner conductor material: Pure copper
- Conductor size: 28 AWG
- Contact plating: Gold-plated
- Connector housing material: Aluminium
- Shielding: Aluminium foil
- Cable jacket: Textile braid
- Cable outer diameter: 3.3mm
- Cable shape: Round
- Cable colour: Black and grey
- Connector colour coding: Red and white RCA plugs
- Connector protection: Bend protection
- Product weight: 0.047kg
- EAN: 4040849652882
- Recommended use: Analogue stereo audio connections between compatible 3.5mm output devices and RCA input equipment

FAQ

What is the Goobay 65288 3.5mm to RCA cable used for?

The Goobay 65288 connects a device with a 3.5mm stereo audio output to audio equipment with two RCA inputs. Typical applications include connecting compatible computers, laptops and smartphones to amplifiers, stereo receivers and powered speakers.

Can I connect my laptop to an amplifier with this cable?

Yes. You can connect a laptop with a compatible 3.5mm audio output to an amplifier with a pair of analogue RCA audio inputs. Connect the 3.5mm plug to the laptop and the red and white RCA plugs to the corresponding audio inputs on the amplifier.

Can I use the Goobay 65288 with a smartphone?

Yes, if the smartphone has a compatible 3.5mm analogue audio output. Smartphones without a headphone socket may require a separate compatible audio adapter.

Does this cable support stereo sound?

Yes. The 3-pin 3.5mm stereo connector and two RCA plugs provide connections for the left and right audio channels.

How long is the Goobay 65288 audio cable?

The cable is 2m long, providing additional flexibility when connecting audio equipment positioned on a desk or entertainment unit.

Are the connectors gold-plated?

Yes. The cable uses gold-plated contacts designed to help resist corrosion and maintain reliable electrical contact.

Can I connect this cable to any television or soundbar?

Only if the receiving device has compatible analogue RCA audio inputs. Some televisions and soundbars provide RCA outputs rather than inputs, while others use HDMI, optical or other connections. Check the available ports and their input or output functions before purchasing.

Does the Goobay 65288 cable require external power?

No. This is a passive audio cable and does not require a separate power supply. The connected audio source and receiving equipment must be powered as required for normal operation.

Can this cable transmit video?

No. The Goobay 65288 is designed for analogue stereo audio connections using a 3.5mm stereo plug and two RCA audio plugs. It is not a video cable.
