and a 3840 x 2160 resolution. Its native 144Hz refresh rate and 288Hz Smooth Motion are designed to provide smooth motion for sports, action content and gaming, while the Hi-View AI Engine analyses picture content and adjusts colour, contrast and clarity in real time.

For gaming, the E8S provides a Native 144Hz Game Mode with VRR, ALLM and AMD FreeSync Premium. The TV also supports Dolby Vision, HDR10+, HDR10 and HLG for a broad range of HDR content. Audio is delivered through a 40W system with Dolby Atmos and a built-in subwoofer for enhanced bass.

Performance tier:High-performance 4K Mini-LED Smart TV

Uses:4K streaming, movies, sports, console gaming, PC gaming, home entertainment

Overview

The Hisense 65E8S is a flagship 65-inch 4K UHD Mini-LED Smart TV built for serious gamers and cinephiles. Featuring Native 144Hz refresh rate with 288Hz Smooth Motion, it delivers buttery-smooth performance for next-gen gaming on PS5, Xbox Series X, and high-end PC. The Hi-QLED Mini-LED panel with Quantum Dot and Pantone Validated Color+ ensures accurate, vibrant colours and wide colour gamut. Powered by Hi-View AI Engine, it offers AI-enhanced upscaling, dynamic backlight control, and superior motion clarity. The Total HDR Solution includes Dolby Vision, HDR10+, HDR10, and HLG for cinematic brightness (700 nits peak) and contrast (6000:1 native). With 40W audio, built-in subwoofer, Dolby Atmos, and AMD FreeSync Premium, it's the ultimate all-in-one entertainment hub for South African home theaters and gaming setups.

- Built-in bass: The integrated subwoofer and 40W Dolby Atmos audio system provide enhanced sound without requiring additional external speakers.
- Broad HDR support: Dolby Vision, HDR10+, HDR10 and HLG support provides compatibility with a wide range of HDR

content.

Description

The Hisense E8S 65E8S combines a large 65-inch display with 4K UHD resolution and Hi-QLED Mini-LED technology for detailed home entertainment. With 3840 x 2160 pixels, Quantum Dot colour and Wide Colour Gamut support, the TV is designed to produce detailed images with vibrant colour and strong contrast. The 6000:1 native contrast ratio and 700 nits peak brightness support visible detail across bright highlights and darker scenes.

The Hi-View AI Engine provides real-time picture processing by analysing content and adjusting colour, contrast and clarity. MEMC motion enhancement and 288Hz Smooth Motion are designed to improve motion clarity for fast-moving content such as sport and action scenes. Filmmaker Mode is also available for compatible movie content.

Gaming is a key feature of the E8S. Native 144Hz Game Mode works with VRR, ALLM and AMD FreeSync Premium to provide smoother motion and responsive gameplay. The TV provides four HDMI inputs, two USB ports, dual-band Wi-Fi and Bluetooth 5.4 for connecting compatible entertainment and gaming equipment.

Audio is handled by a 40W system with Dolby Atmos and a built-in subwoofer. This provides the TV with dedicated bass reproduction alongside its integrated speakers. The TV also supports voice command, screen mirroring and smart TV functionality through the VIDAA platform.

Features

The Hisense E8S is designed as a versatile 4K Smart TV for home cinema, streaming, sport and gaming, combining advanced picture processing with high refresh rate performance and integrated audio.

- 65-inch 4K UHD display: Provides 3840 x 2160 resolution for detailed viewing.
- Hi-QLED Mini-LED: Combines Mini-LED backlighting and Quantum Dot technology for detailed images, strong contrast and vibrant colour.
- Hi-QLED Color+: Pantone Validated colour technology is designed for accurate and vibrant colour reproduction.
- Hi-View AI Engine: Analyses picture content and adjusts colour, contrast and clarity in real time.
- Native 144Hz Game Mode: Provides a high refresh rate for smooth gaming and fast-moving content.
- 288Hz Smooth Motion: Enhances motion handling for sports, action scenes and other fast-moving content.
- AMD FreeSync Premium: Helps synchronise display refresh rate with compatible gaming hardware.
- VRR: Variable Refresh Rate helps reduce screen tearing during compatible gaming.
