Performance tier: Professional Esports

Uses: Competitive Gaming, Mouse Tracking, Desktop Coverage, Esports Tournaments, Office Productivity

Overview:

The SteelSeries QcK XXL mousepad (Part Number: 67500) redefines the gaming experience by offering massive desktop coverage that eliminates the frustration of running out of tracking space during critical moments. This legendary surface has evolved to become the go-to choice for millions of gamers and esports champions alike, trusted over the past 15 years for its consistent performance on the world's biggest stages. With a high thread count micro-woven cloth design, it ensures pinpoint accuracy for both optical and laser sensors, providing a smooth glide that optimizes your movements without sacrificing control.

The QcK XXL measures an impressive 900 by 400 millimeters with a thickness of just 2mm, striking the perfect balance between comfort and stability. This low-profile design prevents wrist strain while ensuring your mouse stays precisely where you place it, thanks to a durable non-slip rubber base that locks firmly onto any desk surface. Whether you are engaging in fast-paced shooters or strategic games, this mousepad delivers professional performance backed by a brand that has secured more prize money for pros than any other competitor.

Description:

The SteelSeries QcK XXL (Part Number: 67500) is the ultimate gaming accessory designed to provide complete desktop coverage and effortless mouse control. This low-profile mousepad features a legendary micro-woven cloth surface optimized for both optical and laser sensors, ensuring smooth glides and pinpoint accuracy for every move. Its durable non-slip rubber base keeps the pad firmly in place during intense gameplay, while the 2mm thickness offers an ideal blend of comfort and stability for long gaming sessions.

Features:

Why Gamers Choose This Mousepad

- Extra-large dimensions provide ample space for all your peripherals without running out of tracking area
- Legendary micro-woven cloth surface tested by top sensor manufacturers for superior accuracy
- Durable non-slip rubber base prevents unwanted movement during competitive play
- 2mm thickness ensures optimal comfort while maintaining a low profile for easy mouse movement
- Trusted by esports professionals worldwide as the standard for performance and reliability

Technical Specifications:

The QcK XXL is built to exacting standards with specific dimensions tailored for large desk setups. The surface material consists of high-quality cloth designed for consistent friction, while the base utilizes silicon rubber to guarantee a secure grip on any table. For those considering other sizes in the series, the Small measures 250 by 210 millimeters, the Medium is 320 by 270 millimeters, and the Large option reaches 450 by 400 millimeters, all maintaining the signature 2mm thickness of the standard line.

The XXL variant expands significantly beyond these sizes to offer a true full-desk experience. It comes in at exactly 900 mm by 400 mm with a thickness of 2 mm, ensuring it fits seamlessly into setups that require maximum movement room. For users needing even more space, the series also includes larger options like the 3XL and 5XL variants which feature increased dimensions up to 1600 mm in length, though these thicker models measure at 3mm compared to the standard 2mm profile of the QcK XXL.

What's in the box

- QcK XXL Mousepad (900 x 400 x 2 mm)
