HP Rechargeable Active Pen G3

Product Overview

HP Rechargeable Active Pen G3

Specifications

Overview:

Take your inspiration straight to your screen with the HP Rechargeable Active Pen G3, the digital pen designed for natural onscreen note-taking, drawing, and app navigation. And it's easier than ever to keep track of, with a built-in magnetic attach capability.

Features:

Take the pressure off digital inking
Reduce the force required to use your pen when writing, drawing onscreen or working with your touch applications with improved starting and inking pressure vs. the previous generation.

Never miss a note with a rechargeable battery
Keep working and creating with a pen that's rechargeable through your device's USB-C™ adapter or the included USB-C™ to USB-A cable. LEDs cue you on charging status.

Quickly launch apps and shortcuts
Customize button functions and shortcuts with the included software. Launch an app with a programmable Bluetooth® feature that pairs with frequently-used productivity apps. A digital proximity alert notifies you if you leave your pen behind.

Easy to use
Once your device is paired and in range, it detects the pen and cues you where to place it onscreen. Erase, highlight, and click on your content with the two convenient side buttons.
