Dell 482-BBCY MDS19 Dual Monitor stand, 100x100 mm Maximum mounting pattern size, cable clips on the bar, Round cable slot, 19" - 27" recommended Display size, Tilt, Lift, Rotation, Swivel

Specifications

Overview:

Dell Dual Monitor Stand - MDS19

- Manufacturer part 9JMJ8
- Dell part 482-BBCY

Optimize your desk space with a small footprint and impressive cable management features. Mount up to two 27" monitors without tools*

Features:

Maximize desk space with improved viewing distance

Space saving, the Dell Dual Monitor Stand - MDS19 mounts up to two 27-inch monitors, providing the screen real estate you need to be most productive. Designed to have a 30% smaller footprint and a greater viewing distance than its predecessor, the Dell Dual Monitor Stand - MDS19 frees up precious space in front of you for writing and referencing and offers improved viewing comfort.

Neat and clutter-free workstation

Thoughtfully designed, this stand comes with cable management features that neatly hide cables from view. Organize your cables by routing them through the round cable slot and channeling them within the stand. Cable clips along the curved crossbar keep them neatly hidden and out of your way.

Flexible adjustments for an ideal view

Adjust both monitors independently to your ideal height and viewing angle. Each panel may be raised up to 5 inches (130mm) and can pivot 90 degrees in any direction, offering portrait view for easy webpage navigation or scrolling on vertically oriented applications.

Install easily-no tools needed

Snap monitor panels in place with ease, without needing screws or tools when attaching Dell UltraSharp or P-series monitors with Quick Release.

Compatibility

Optimized for Dell UltraSharp and P-series monitors with Dell Quick Release, Dell E-series monitors and 19" to 27" VESA compatible monitor panels. Use the included VESA adapter plate to mount the Dell E-series or VESA compatible monitor.

Whats in the box

- Dell Dual Monitor Stand - MDS19
- VESA Adapter Plates
