Dell EB525 Pro Plus Earbuds

Product Overview

Dell 520-BBNM EB525 Pro Plus Earbuds, Hearing protection, Active Noise Cancellation, Wireless Charging, USB charging, Bluetooth pairing, 24 cm cable length, 30m Wireless operating distance, Microsoft Teams certification, Ai-powered, Up to 5hrs Battery talk time, 11.6 mm Driver size, MEMS Microphone Technology, Integrated Microphone, USB Type-C charging Interface, Water resistant, Dust resistant

Specifications

Overview Summary:

Experience superior audio clarity with the Dell Pro Plus EB525 Earbuds, featuring AI-based noise-cancelling technology and Adaptive ANC. Perfect for professionals in South Africa, these earbuds deliver clear, distraction-free calls whether in the office or on the move. Enjoy effortless connectivity with Bluetooth 5.3, multi-point device pairing, and fast USB-C charging. Shop now and elevate your communication with earbuds designed for productivity and comfort.

Compact and durable, the EB525 earbuds provide up to 5 hours of talk time and 33 hours with the charging case. Their IP54 water and dust resistance, combined with a custom fit from four ear tip sizes, ensures all-day comfort. Buy now to experience immersive sound and intelligent audio controls through the Dell Audio app.

Performance tier:Premium

Uses:Professional calls, Microsoft Teams, Zoom meetings, wireless music, active noise-cancellation listening, travel, office productivity

Overview:

Dell Pro Plus Earbuds EB525 Wireless ANC Earbuds for Work and Calls

The Dell Pro Plus Earbuds EB525 are engineered for professionals who demand consistent audio clarity in dynamic environments. With AI-powered noise cancellation and adaptive ANC, these earbuds are designed to isolate your voice while minimizing background distractions. Whether you are in a busy office or working remotely, the earbuds deliver clear communication and immersive sound. Built for versatility, they combine intelligent audio processing, seamless connectivity, and a comfortable in-ear design suited for extended use.

Description:

The Dell Pro Plus Earbuds EB525 deliver high-performance wireless audio with AI-driven noise cancellation and adaptive ANC for focused listening and clear calls. Designed for modern workflows, they support Bluetooth 5.3 with multi-point connectivity, allowing pairing with multiple devices simultaneously. The earbuds include intuitive touch controls, customizable audio settings via Dell software, and a secure, comfortable fit with multiple ear tip sizes. With fast charging, long battery life, and IP54-rated durability, they are suitable for both professional and everyday use.

Features:

AI-driven call clarity and communication precision

ComX Computers

Product Specification Sheet

A key differentiator of the EB525 is its AI-based noise-cancelling microphone system. The earbuds actively identify and prioritize your voice while suppressing surrounding noise, resulting in clearer conversations. This makes them particularly effective in shared workspaces and open office environments. Certification for Microsoft Teams and Zoom ensures compatibility with enterprise communication platforms.

Adaptive listening modes for different environments

The earbuds allow quick switching between noise isolation and environmental awareness. Adaptive ANC dynamically adjusts based on ambient conditions, maintaining a balance between immersion and comfort. Transparency mode enables natural awareness of your surroundings without removing the earbuds, which is useful for situational awareness during work or travel.

Seamless connectivity across devices

Modern workflows require flexibility, and the EB525 accommodates this with advanced wireless capabilities:

- Bluetooth 5.3 ensures stable, low-latency connections
- Multi-point pairing supports up to 8 devices, with 2 active connections at once
- Dell Pair enables quick connection to compatible Dell systems
- Reliable wireless range of up to 30 meters

These features reduce interruptions when switching between devices such as laptops and smartphones.

Comfort-focused design with everyday durability

The earbuds are designed for extended wear, offering four ear tip sizes to achieve a secure and personalized fit. The lightweight in-ear form factor minimizes fatigue, while the IP54 rating provides resistance to dust and water, supporting daily use in varied conditions.

Smart controls and personalization

On-device touch controls simplify interaction, allowing users to:

- Adjust volume and playback
- Toggle ANC and transparency modes
- Manage calls and microphone settings
- Navigate tracks with intuitive gestures

Customization is available through Dell software tools, enabling users to fine-tune equalizer settings, assign controls, and update firmware.

Battery performance and charging efficiency

Battery life supports full workdays with minimal interruptions:

- Up to 5 hours talk time with ANC enabled
- Up to 8 hours listening time on earbuds alone
- Up to 33 hours total with charging case
- Fast charging delivers approximately 1 hour of use from a 5-minute charge
- Full recharge completed in under 2 hours

Charging is handled via USB Type-C or wireless charging for added convenience.

Core technical details and specifications

- Part Number / SKU: NBDE520-BBNM
- Driver size: 11.6 mm
- Frequency response: 20 Hz to 20 kHz
- Microphone technology: MEMS with AI noise suppression
- Signal-to-noise ratio: 66 dB

ComX Computers

Product Specification Sheet

- Connectivity: True wireless, Bluetooth 5.3
- Cable length: 24 cm (charging cable)
- Charging interface: USB Type-C
- Operating systems: Windows 10 and 11, macOS, iOS, Android
- Battery capacity: 66 mAh (earbuds), 500 mAh (case)

What is included in the box

- Dell Pro Plus Earbuds EB525
- Dell Wireless Audio Receiver HR024
- USB-C charging cable
- User documentation

Designed for modern professional workflows

The Dell Pro Plus Earbuds EB525 integrate communication clarity, adaptive sound control, and device flexibility into a compact form factor. With SKU NBDE520-BBNM, they are positioned as a practical solution for users who need reliable wireless audio performance across meetings, calls, and media consumption.

Specifications:

Technical Information	
Connectivity Technology	True Wireless
Wireless Technology	Bluetooth
Cable Length	24 cm
Wireless Operating Distance	30m
Bluetooth Standard	Bluetooth 5.3
Minimum Frequency Response	20 Hz
Maximum Frequency Response	20 kHz
Features	Hearing Protection
	Adaptive Active Noise Cancellation
	Wireless Charging
	USB Charging
	Bluetooth Pairing
Noise Canceling	Yes
Fast Charging	Yes
Microsoft Teams Certification	Yes
Zoom Certification	Yes
Active Noise Canceling (ANC)	Yes
Charging Method	Cable
	Case
AI-powered	Yes
Maximum Number of Paired Devices Supported	8
