Microworld empty Metal extension reel

Product Overview

Microworld empty Metal extension reel, Max 30m-50m cable storage, Durable Steel Frame, 10a/16a 250V 2500W, 2x 16A sockets + Shuko Socket, Illuminated Switch control

Specifications

Overview Summary:

The Microworld Empty Metal Extension Reel is a durable solution for neatly storing and managing extension cables up to 30m to 50m. Built with a robust steel frame, it features two 16A sockets, a Schuko socket, overload protection, and an illuminated power switch for reliable everyday use in workshops, construction sites, garages, and industrial environments. Buy now for a practical cable management solution built to withstand demanding conditions.

Designed for flexibility and long-term durability, this empty extension reel allows you to fit your preferred cable while keeping your workspace organised and reducing cable wear. Shop now for a dependable extension reel suitable for professional and home electrical applications.

Performance tier: Professional

Uses: Extension cable storage, workshops, construction sites, garages, maintenance work, industrial applications, electrical installations

Overview:

Heavy-Duty Empty Metal Extension Reel for 30m to 50m Cable Storage
The Microworld Empty Metal Extension Reel is a practical and durable solution for storing and managing extension cable lengths between 30m and 50m. Built with a sturdy steel frame, it helps keep cables neat, protected, and easy to transport while reducing tangles during storage and use.

Description:

Designed for electricians, contractors, workshops, and DIY users, this empty metal extension reel provides a reliable base for building or replacing an extension lead. Its robust steel construction offers long-lasting durability, while the integrated overload

control and illuminated power switch improve convenience and operational safety. Equipped with two 16A sockets and a Schuko socket, it is suitable for a wide range of residential, commercial, and industrial applications. Part Number / SKU 75 makes it easy to identify when ordering or replacing this model.

Features:

Built for Everyday Cable Management
Whether used on construction sites, in workshops, or around the home, this metal extension reel keeps longer cables organised and ready for use. The strong frame withstands demanding environments while making winding and unwinding cables more efficient.

Key Highlights

- Empty extension reel designed for 30m to 50m cable storage
- Durable steel frame for long-term reliability
- Supports 10A/16A, 250V, up to 2500W operation
- Two 16A power sockets
- One Schuko socket
- Integrated overload protection
- Illuminated on/off switch for easy status indication
- Supplied in protective poly bag packaging

Technical Details

- Product: Empty Metal Extension Reel
- Part Number / SKU: 75
- Maximum cable capacity: 30m to 50m
- Frame material: Steel
- Voltage: 250V
- Current rating: 10A/16A
- Maximum load: 2500W
- Socket configuration: 2 x 16A sockets and 1 x Schuko socket
- Safety: Overload control
- Switch: Illuminated power switch

Ideal Applications
This empty cable reel is well suited for workshops, garages, warehouses, construction sites, maintenance teams, agricultural environments, and general electrical installations. It provides a dependable way to create a custom extension reel while keeping cables protected and organised.
