

8330

Microworld 8330 Wired Thermal Receipt Printer, Parallel, Serial Port, USB, LAN

Product Overview

Microworld 8330 Wired Thermal Receipt Printer, Thermal Line printing Method, 512 dots / line Character size, 300mm/second print Speed, parallel / Serial Port / USB Port / Ethernet, 83mm print Diameter, full or partial Cut cutter

Specifications

Overview Summary:

The Microworld 8330 Wired Thermal Receipt Printer is a fast and reliable choice for South African businesses looking for efficient printing solutions. With a high-speed output of 300mm per second, durable cutting mechanism, and flexible connectivity options, it's perfect for retail stores, restaurants, and industrial operations. Its compact design and oil-resistant build make it well-suited for demanding environments where reliability matters most. Shop now and streamline your point-of-sale system with this professional-grade receipt printer.

Buy the Microworld 8330 today to enjoy easy paper roll installation, multiple barcode printing support, and seamless compatibility with Windows and Linux systems. Designed for long-lasting performance with minimal maintenance, this printer helps businesses save time and reduce costs.

Performance tier:Professional

Uses:Retail POS, restaurant orders, industrial control systems, kitchen printing, barcode receipt printing

Overview:

Microworld 8330 Wired Thermal Receipt Printer

The Microworld 8330 is a high-speed wired thermal receipt printer designed for retail POS systems, restaurants, and industrial control environments. With a compact design, reliable performance, and multiple connectivity options, it offers an efficient and cost-effective solution for businesses that need fast and precise receipt printing.

Description:

This thermal receipt printer delivers 300mm per second printing speed, supports multiple barcode types, and offers flexible connectivity via USB, Ethernet, Serial, and Parallel ports. Its durable cutter, easy paper roll installation, and low operating cost make it an excellent choice for businesses seeking reliable receipt printing with minimal maintenance.

Features:

Key Highlights

- High-speed printing up to 300mm/second
- Supports USB, LAN, RS232, and Parallel connections
- Compact, lightweight, and portable design
- Water- and oil-resistant front-feeding structure
- Compatible with ESC/POS command set

Design and Build

The Microworld 8330 is built with a sleek, lightweight form factor that makes it easy to integrate into retail counters or kitchen setups. Its front-feeding mechanism is designed to resist oil and water, making it ideal for demanding environments such as restaurants.

Performance and Printing Quality

- Thermal line printing method with 512 dots per line
- Adjustable font sizes and line spacing
- Capable of bold text printing and character amplification
- Supports bitmap and raster graphics printing

ComX Computers

Product Specification Sheet

- Embedded soft fonts for smooth, fast output

Connectivity Options

This model is equipped with multiple interfaces, ensuring easy integration with existing systems:

- USB Port
- Ethernet Port
- Serial Port (RS232)
- Parallel Port

Applications

The Microworld 8330 is suitable for:

- Retail POS systems
- Restaurant order management
- Industrial control systems
- Kitchen menu printing with optional audible and visual alarm integration

Technical Details

- Printing width: 79.5 +/- 0.5mm (effective 72mm)
- Paper roll diameter: 83mm
- Paper thickness: 0.06 - 0.08mm
- Power supply: DC 24V / 2.5A
- Weight: 2.2kg
- Cutter type: Full or partial cut
- Drivers: Windows (XP, 7, 8, Vista, 2000, 2003, 9X) and Linux
- Barcode support: UPC-A, UPC-E, JAN13 (EAN13), JAN8 (EAN8), CODABAR, ITF, CODE39, CODE93, CODE128
- Compatible with Epson and Samsung command sets

Why Choose Microworld 8330

Businesses choose this printer for its reliability, affordability, and ease of use. It eliminates the need for ribbons or ink cartridges, reducing running costs while maintaining high-quality output. Its support for multiple platforms and fast printing ensures it can keep up with high-demand environments.
