Buy now from our website for a premium 85 inch 4K TV experience.

Overview Summary

Toshiba C350RP 85 inch 4K UHD Smart LED TV

The Toshiba 85C350RP combines a large 85 inch display with 3840 x 2160 4K UHD resolution for detailed and immersive home entertainment. Its Direct LED backlight works with Dolby Vision, HDR10 and HLG to support enhanced contrast, colour

and detail when viewing compatible HDR content.

The REGZA Engine ZR AI processor and AI 4K Clarity are designed to enhance picture processing and improve the appearance of compatible content. For gaming, Game Mode with VRR and ALLM is designed to support smoother, more responsive gameplay. Dolby Atmos audio is supported through the built-in 2 x 15W speaker system, while the VIDAA smart platform provides access to smart TV functionality and entertainment applications.

Performance tier:Premium large-screen 4K UHD Smart LED TV

Uses:Movies, TV shows, streaming, sports, gaming, home entertainment

Overview

The Toshiba 85C350RP is a large-screen 85-inch 4K Smart TV designed for home theaters and spacious living rooms. It features a Direct LED panel with 4K UHD resolution (3840x2160) and comprehensive HDR support including Dolby Vision, HDR10, and HLG for vibrant colors, deep contrast, and bright highlights. The REGZA Engine ZR (AI-powered processor) delivers real-time picture optimization through AI 4K Clarity, upscaling lower-resolution content to near-4K quality, and enhancing color accuracy and detail. For gamers, the TV includes Game Mode and Game Deck features with VRR (Variable Refresh Rate) and ALLM (Auto Low Latency Mode) support via HDMI 2.0 ports, reducing input lag and screen tearing for smooth, responsive gameplay. Audio is handled by a 30W (2x15W) speaker system with Dolby Atmos and REGZA Power Audio for immersive, multi-dimensional sound.

Description

The Toshiba C350RP 85C350RP is a large-format 85 inch Smart LED TV designed to bring a cinematic viewing experience into the home. Its 4K UHD resolution delivers 3840 x 2160 pixels, providing detailed images across movies, television programming, streaming content and compatible gaming sources.

The Direct LED backlight provides the display illumination, while Dolby Vision, HDR10 and HLG support enhances compatible high dynamic range content. These technologies are designed to provide a wider range of brightness and picture detail when viewing supported HDR material.

Picture processing is handled by the REGZA Engine ZR AI processor, with AI 4K Clarity designed to improve the presentation of content through advanced image processing. This makes the television suitable for a wide range of entertainment sources, including 4K content and compatible lower-resolution material.

Gamers can use Game Mode with VRR and ALLM. VRR is designed to help maintain smoother gameplay by adapting display refresh behaviour to compatible gaming hardware, while ALLM can help automatically select a low-latency display mode when supported gaming equipment is detected.

Audio is handled by built-in 2 x 15W speakers with Dolby Atmos support for compatible content. The VIDAA smart platform provides the foundation for the television's smart functionality, making the Toshiba C350RP suitable as the central display for a modern home entertainment setup.
