

900163

Port USB Type C with 4 USB Ports Hub

Product Overview

Port USB Type C with 4 USB Ports Hub - Converts 1 x USB Type C Port to 4 x USB Ports, with 100W Power Distribution, Up to 5Gbps High Speed Data Transfer For USB 3.0 and 3.2 Gen, 10cm Cable Length, Fine and Lightweight Design For Mobile Use, Compatible with Windows, macOS, or Linux, Retail Box

Specifications

About this product

The 900163 USB Type C 4 Port USB Hub expands a single USB Type C connection into four USB ports, providing up to 5Gbps high speed data transfer and up to 100W power distribution. Its compact 10cm cable design makes it suitable for laptops, tablets and other compatible devices running Windows, macOS or Linux. Buy now from our site for a practical USB Type C connectivity solution for mobile and desktop use.

Overview Summary

900163 USB Type C 4 Port USB Hub is a compact connectivity accessory designed to expand one USB Type C port into four USB ports. It supports USB 3.0 and USB 3.2 Gen connections with data transfer speeds of up to 5Gbps, helping users connect multiple compatible USB devices through a single Type C port.

Designed for mobile use, the hub features a fine and lightweight construction with a 10cm cable for convenient connection to compatible laptops and other devices. It also supports up to 100W power distribution, making it useful for expanding connectivity while maintaining a compact setup.

Performance tier: High speed USB connectivity

Uses: USB device expansion, data transfer, laptop connectivity, mobile workstation setups, peripheral connection

Overview

PORT Connect USB-C hub expands one USB-C port into 4 USB-A ports plus 1 USB-C Power Delivery port, giving you more ways to connect everyday peripherals. It supports data transfer speeds up to 5 Gbps and 100W power delivery, so you can charge a compatible laptop while still using other devices. Lightweight and portable, it is a practical plug-and-play accessory for work, travel, and desktop setups

Description

The 900163 USB Type C 4 Port USB Hub provides a straightforward way to expand the connectivity of a compatible USB Type C device. By converting one USB Type C port into four USB ports, it allows multiple USB peripherals to be connected through a single available Type C connection.

With support for USB 3.0 and USB 3.2 Gen connectivity, the hub provides data transfer speeds of up to 5Gbps when used with compatible devices and peripherals. This makes it suitable for everyday file transfers and connecting USB accessories that require high speed data communication.

The hub also supports up to 100W power distribution. This provides additional power distribution capability when supported by the connected host device and compatible equipment. The 10cm cable helps keep the hub close to the host device while maintaining a compact footprint.

Its fine and lightweight design is suited to mobile use, making it convenient for users who regularly work with laptops or other compatible USB Type C devices. Compatibility with Windows, macOS and Linux provides flexibility across commonly used operating systems.

Features

The 900163 USB Type C hub combines multiple USB connections, high speed data transfer and power distribution in a compact mobile design.

- Converts 1 x USB Type C port into 4 x USB ports.
- Supports data transfer speeds of up to 5Gbps.
- Compatible with USB 3.0 and USB 3.2 Gen connectivity.

ComX Computers

Product Specification Sheet

- Supports up to 100W power distribution.
- Compact 10cm cable length.
- Fine and lightweight design for mobile use.
- Compatible with Windows, macOS and Linux.
- Provides convenient USB port expansion for compatible devices.

What's in the Box

- 900163 USB Type C 4 Port USB Hub
- Retail box

Specifications

- Product model: 900163
- Product type: USB Type C 4 Port USB Hub
- Host connection: 1 x USB Type C
- USB ports: 4 x USB ports
- USB compatibility: USB 3.0 and USB 3.2 Gen
- Maximum data transfer speed: Up to 5Gbps
- Power distribution: Up to 100W
- Cable length: 10cm
- Design: Fine and lightweight
- Operating system compatibility: Windows, macOS, Linux
- Intended use: Mobile and general USB connectivity
- Packaging: Retail box

FAQ

What is the 900163 USB Type C 4 Port USB Hub?

The 900163 is a USB Type C hub that converts 1 x USB Type C port into 4 x USB ports for connecting multiple compatible USB devices.

What data transfer speed does the USB hub support?

The hub supports data transfer speeds of up to 5Gbps with compatible USB 3.0 and USB 3.2 Gen devices and connections.

Does the 900163 USB hub support power distribution?

Yes. The hub supports up to 100W power distribution when used with compatible host devices and equipment.

How long is the cable on the USB Type C hub?

The integrated cable has a length of 10cm.

Which operating systems are compatible with the hub?

The 900163 USB Type C hub is compatible with Windows, macOS and Linux.

What can the 900163 USB hub be used for?

It can be used to expand USB connectivity on compatible devices, connect multiple USB peripherals, transfer data and support mobile workstation setups.

Is the 900163 USB Type C hub suitable for mobile use?

Yes. Its fine and lightweight design and 10cm cable make it suitable for mobile use with compatible USB Type C devices.
