Logitech G302 Gaming Mouse

Product Overview

Logitech G302 Gaming Mouse, 4000 Dpi, High Speed Clicking, Lightweight and Durable Design

Specifications

Overview:

Designed with pro gamers, G302 Daedalus Prime™ MOBA gaming mouse is masterfully crafted as a precision gaming tool. Experience responsive design engineered to withstand the rigors of the highest tiers of professional gaming.

Features:

Accuracy and durability for the highest levels
We worked directly with professional MOBA players to design features and playability from the ground up. Delta Zero™ sensor technology ensures accurate tracking while button durability is built to withstand high speed clicking for hours on end.

Improved button response and feel
MOBA games are some of the toughest games on mouse buttons, with commands regularly issued multiple times per second. The metal spring tensioning system keeps left and right mouse buttons precisely tensioned to improve response and feel, making in-game actions fast and accurate click after click.

Customize to fit your style of game play.
Achieve great results with the default configuration straight out of the box. Or, set up one-button triggers for actions that typically require digging into menus. Put push-to-talk communications in easier reach. Temporarily down-shift DPI for sniping. Reassign any game command or multi-command macro to any one of six programmable buttons with Logitech Gaming Software.

Better control of how you game
Make the right moves in any game situation. Shift through up to 4 DPI settings, from pixel-precise targeting (240 DPI) to lightning-fast maneuvers (up to 4000 DPI).

Designed for maximum play time
The lightweight design, ultra durable switches tested to 20- million clicks, and super low friction feet enable you to be comfortable no matter how long competition lasts.

Comfortable and versatile

Daedalus Prime has been optimized for fingertip and claw grips to ensure the maximum possible comfort.

System Requirements:

- Windows® 8, Windows 8.1, Windows 7 or Windows Vista®
- Powered USB port
- Internet connection and 100MB hard drive space (for optional software download)

Specifications	
Product Code	910-004208
Technical Details	6 programmable buttons
	On-the-fly DPI Switching
	Metal spring left/right button tensioning system
	1 millisecond report
	High-speed clicking
	Full-speed USB
Tracking	Resolution: 240 - 4,000 dpi
	Max. acceleration: >20G
	Max. speed: >120 ips (3 m/sec)
Responsiveness	USB data format: 16 bits/axis
	USB report rate: 1000 Hz (1ms)
	Microprocessor: 32-bit ARM
Glide	Dynamic coefficient of friction*: .11 u (k)
	Static coefficient of friction*: .17 u (s)
Durability	Buttons (Left / Right): 20 million clicks
	Feet: 250 kilometers
Physical specifications	Height: 115 mm (4.53 in)
	Width: 65 mm 2.56 in)
	Depth: 37 mm (1.46 in)
	Weight: 127 g, mouse plus cable (4.48 oz)
	Weight: 87 g, mouse only (3.07 oz)
