Logitech G900 Wired or Wireless Gaming Mouse

Product Overview

Logitech Gaming Mouse G900 Chaos Spectrum Professional Grade wired/wireless gaming mouse combines superior accuracy and speed in a lightweight, highly customisable design

Specifications

Features:

Trusted by top eSports athletes
In high-pressure moments, latency can be the difference between winning it all or losing. With millions on the line, top eSports professionals can depend on G900 Chaos Spectrum. Featuring a 1-millisecond report rate and our highly optimized 2.4GHz wireless connection, Chaos Spectrum delivers incredible responsiveness for competition-level twitch targeting.

Pixel-precise performance
Chaos Spectrum comes equipped with the PMW3366 optical sensor - widely regarded as the best gaming mouse sensor on the market. PMW3366 has zero smoothing, filtering or acceleration across the entire DPI range (200-12,000DPI), delivering exceptional tracking accuracy and consistent responsiveness at any speed. For even better accuracy and speed, use surface tuning in Logitech Gaming Software to tune the sensor to your playing surface.

Superior comfort and speed
Every component of Chaos Spectrum has been optimized to reduce weight while maintaining stability. Each element of the construction was analyzed and adjusted to remove milligrams wherever possible, from thin wall molding to a hollow "spoked" hyperscroll wheel design. The result is a wireless mouse that weighs in at only 107g, maximizing comfort over extended periods of use and delivering quicker response to motion.

Customizable to fit your hand and style
Fully-configurable button layout and ambidextrous design allow for left- or right-handed use that works with nearly any mouse grip style, including palm, claw and fingertip grips.

For high-endurance gameplay
Chaos Spectrum features exclusive clock-tuning technology that significantly reduces power consumption, so you can play for a continuous 32 hours - an entire competition weekend - on a single charge.* Battery Assistant in Logitech Gaming Software keeps you informed about your charge level and gives you an estimate of your remaining battery life.

Faster and more reliable
Chaos Spectrum clock-tuning technology maximizes speed and battery life while minimizing degradation commonly caused by temperature, humidity, aging and part-to-part variances.

Fast, accurate and reliable click performance
A metal spring tensioning system and metal pivot hinges are built into left and right mouse buttons for a crisp, clean click feel with rapid click feedback. This system helps reduce the pre-travel distance between buttons and switches while also reducing the force required to click - enabling faster recovery after each click. In addition, this system helps ensure a lower, more consistent and predictable click force from click to click.

Control at your fingertips
Use Logitech Gaming Software to program your favorite commands and macros to each of the up to 11 buttons.

Choose from 16.8 million colors
Chaos Spectrum features two lighting zones that can be customized independently to match your style, system or environment. With Logitech Gaming Software, you can select from a spectrum of up to 16.8 million colors and synchronize lighting patterns and effects with other Logitech G devices.

Best of both worlds
Plug in the data and charging cable to seamlessly switch between wireless and wired modes without interrupting your game.

System Requirements:

- Windows® 10, Windows 8.1, Windows 8, Windows 7
- Powered USB port
- Internet connection for optional software download

Specifications	
Product Code	910-004608
Tracking	
Resolution	200 - 12,000 dpi
Max. acceleration	>40G
Max. speed	>300 ips
Responsiveness	
USB data format	16 bits/axis
USB report rate	1000 Hz (1ms)
Wireless report rate	1000Hz (1ms)
Wireless technology	Custom 2.4GHz
Microprocessor	32-bit ARM
Glide	
Dynamic coefficient of friction	* 0.11 u (k)

Static coefficient of friction	* 0.17 u (s)
Durability	
Buttons (Left / Right)	20 million clicks
Feet	250 kilometers
Battery Life	
Default lighting	24 hours
No lighting	32 hours
Mouse Specifications	
Connection Type	Wired/Wireless
USB Protocol	USB 2.0
DPI (Min/Max)	200-12, 000
USB Report Rate	1ms
Sensor	PMW3366
Indicator Lights (LED)	Yes, RGB
Buttons	6-11
Other Features	Hyperfast scroll wheel, on-the-fly DPS adjustment, up to 5 onboard profiles
Physical specifications	
Height	130 mm (5.12 in)
Width	67 mm (2.64 in)
Depth	40 mm (1.57 in)
Weight	107 g (3.80 oz) mouse only
Cable Length (Power/Charging)	1.83 M (6 ft)
