Logitech G502 Proteus Spectrum RGB Tunable Gaming Mouse

Product Overview

Logitech G502 Proteus Spectrum RGB Tunable Gaming Mouse

Specifications

Features:

- Our most accurate sensor on the market
- 32-bit microcontroller
- 3 on-board profiles
- 1 millisecond report rate
- Primary buttons rated to 20 million clicks
- Mechanical microswitches
- Improved keyplate design for better click feeling and performance
- Braided cable with hook and loop cable tie
- Sleep mode disabled
- 3 DPI indicator LEDs
- Rubber grips
- Magnetic weight-cavity door

Control like you are in the game
Get maximum tracking accuracy from our most responsive optical sensor (PMW3366). Exclusive Logitech G Delta Zero™ optical sensor technology minimizes mouse acceleration and increases reliable targeting. Switch DPI modes on the fly-choose from five settings from 200 to 12,000 DPI.

It's your mouse the way you like it
Customize to your advantage. Five 3.6g weights come with your Proteus Spectrum. Use some or all of them in the positions where you like more weight, or less. This mouse can be tailored to your preferences.

16.8 million colours to choose from
Adjustable RGB lighting lets you select from up to 16.8 million colors. Use Logitech Gaming Software to choose lighting colour and brightness to match your style, system or environment. You can also set your lighting to sleep when you aren't using your system. Logitech Gaming Software also lets you synchronize lighting patterns and effects with other Logitech G devices so

your devices can display the same lighting and bring your gaming setup to life with breathing or light cycling light patterns.

Adapts to your environment
Playing surfaces vary. You can get better accuracy by fine tuning the optical sensor in Proteus Spectrum to your playing surface. By tuning the mouse to your surface, you get improved precision and responsiveness. Tuning is fast; then you are ready for battle. G502 Proteus Spectrum is pre-tuned for Logitech gaming mouse pads, G240 and G440. Add one of these mouse pads for extreme accuracy.

Fingertip control
Program your favorite commands and macros to each of the 11 buttons. Select from thousands of profiles on your PC, or save your setting to one of the onboard profiles.

Be ready in an instant
Be an unstoppable force with Proteus Spectrum in either low or high DPI. Shift from headshot-precise 200 DPI targeting to lightning-fast 12,000 DPI maneuvers by shifting through up to five DPI settings per profile.

Speed and precision
With Proteus Spectrum, you decide the mode. Choose hyper-fast scrolling or click-to-click precision.

System Requirements:

- Windows® 10, Windows 8.1, Windows 8, Windows 7
- USB port
- Internet connection for optional software download

Specifications	
Product Code	910-004618
Tracking	
Resolution	200 - 12,000 dpi
Max. acceleration	>40G
Max. speed	>300 ips
Responsiveness	
USB data format	16 bits/axis
USB report rate	1000 Hz (1ms)
Microprocessor	32-bit ARM
Glide	
Dynamic coefficient of friction	* 0.10 u (k)
Static coefficient of friction	* 0.15 u (s)
Durability	
Buttons (Left / Right)	20 million clicks
Feet	250 kilometers

Physical specifications	
Height	5.2 in (132 mm)
Width	2.95 in (75 mm)
Depth	1.57 in (40 mm)
Weight	5.9 oz, mouse plus cable (168 g)
Weight	4.3 oz, mouse only (121 g)
