Specifications

Features:

A REBORN HERO
G502 HERO features an advanced optical sensor for maximum tracking accuracy, customizable RGB lighting, custom game profiles, from 100 up to 16,000 DPI, and repositionable weights.

11 Buttons Fully Programmable Advanced features require Logitech G HUB, available for download at logitechg.com/downloads

HERO 16K SENSOR
HERO is our most accurate gaming sensor ever with next-gen precision and a ground-up architecture. With the fastest frame rate processing yet, HERO is capable of 400+ IPS across the 100 - 16,000 DPI range with zero smoothing, filtering or

acceleration. HERO achieves competition-level precision and the most consistent responsiveness ever. Be sure to customize and tune your DPI settings using Logitech G HUB.

11 PROGRAMMABLE BUTTONS
Use Logitech G HUB to program your favorite commands and macros to each of the 11 buttons. Build, crouch, melee, heal … put your power moves at your fingertips. Save ready-to-play profiles directly to the mouse to take your settings with you anywhere.

TUNABLE WEIGHT
Fine tune mouse feel and glide to your advantage. Five 3.6g weights come with G502 HERO and are configurable in a variety of front, rear, left, right and center weighted configurations. Experiment with the alignment and balance to find the sweet spot to optimize your gaming performance.

LIGHTSYNC RGB
LIGHTSYNC technology is next generation RGB that can be driven by games, audio, or your screen to deliver the most immersive RGB experience ever. Select from a full spectrum of approximately 16.8 million colors and synchronize lighting animations and effects with your other Logitech G devices. Customize it all quickly and easily using Logitech G HUB.

Game Ready Details
In addition to the core performance and personalization features, many details were thoughtfully engineered and designed. Look for primary buttons with mechanical switches, braided cable with hook and loop cable tie, rubberized side grips, magnetic weight-cavity door, and more.

Specifications:

Physical Specifications	
Height	132 mm
Width	75 mm
Depth	40 mm
Weight	121 g, mouse only
Optional extra weights	up to 18 g (5x3.6 g)
Cable length	2.10 m
Tracking	
Sensor	HERO
Resolution	100 - 16,000 dpi
Zero smoothing/acceleration/filtering	
Max. acceleration	> 40 G
Max. speed	> 400 IPS
Responsiveness	
USB data format	16 bits/axis
USB report rate	1000 Hz (1ms)
Microprocessor	32-bit ARM
Durability	
PTFE Feet	> 250 kilometers

Other features	
Onboard memory	Up to 5 profiles (requires firmware 127.1.7)
LIGHTSYNC RGB	1 zone
Cable	Braided cable
Requirements	Windows 7 or later
	macOS 10.11 or later
	Chrome OS
	USB port
	(Optional) Internet access for Logitech G HUB (G HUB)
