Logitech G203 LightSync Gaming Mouse - Black

## Product Overview

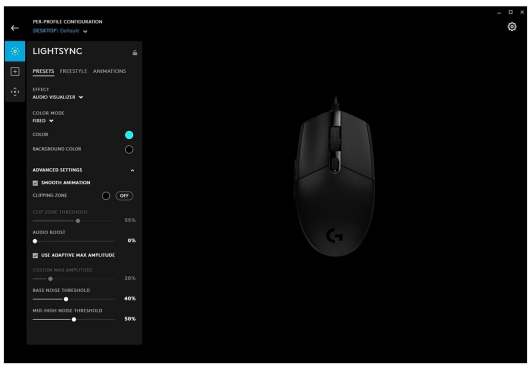

Logitech G203 LightSync Gaming Mouse - Black, LightSync RGB Lighting, 6 programmable buttons, 200 - 8000 dpi Resolution, 1000Hz USB report rate

## Specifications

### Overview Summary:

The Logitech G203 LIGHTSYNC Gaming Mouse delivers reliable gaming performance with precise tracking and customizable RGB lighting. Equipped with an adjustable 200 to 8000 DPI gaming-grade sensor, six programmable buttons and a responsive 1000Hz report rate, it provides the accuracy and control needed for gaming, work and everyday use.

Its lightweight design, onboard memory and Logitech G HUB software support make customization simple, while LIGHTSYNC RGB lighting adds a personalized touch to your setup. Whether you're upgrading your gaming station or looking for a dependable wired mouse, buy now and enjoy responsive performance. Shop now for fast and accurate control in every session.

**Performance tier:**Mid-range Gaming

**Uses:**PC gaming, esports gaming, everyday computing, productivity tasks, content creation, RGB gaming setups

### Overview:

**Logitech G203 LIGHTSYNC Gaming Mouse Black**
The Logitech G203 LIGHTSYNC Gaming Mouse is designed for gamers who want reliable performance, responsive controls, and customizable RGB lighting in a compact and comfortable design. Equipped with a gaming-grade sensor offering adjustable sensitivity from 200 to 8,000 DPI, the G203 delivers precise tracking for everything from competitive gameplay to everyday computing. Its six-button layout provides familiar control, while LIGHTSYNC RGB technology adds vibrant personalization to any gaming setup.

### Description:

The Logitech G203 LIGHTSYNC combines accurate sensor performance, customizable RGB lighting, and programmable controls in a lightweight gaming mouse. Ideal for casual and competitive gamers alike, it offers responsive click feedback, adjustable DPI settings, onboard memory for saved profiles, and seamless customization through Logitech G HUB software. Whether gaming, streaming, or working, the G203 delivers dependable performance with a stylish, colorful look.

### Features:

**Designed for Gaming and Everyday Performance**
Built around Logitech's gaming-grade sensor technology, the G203 provides smooth cursor movement and accurate tracking across a wide sensitivity range. Users can adjust DPI settings between 200 and 8,000 DPI to suit different play styles and applications. Multiple sensitivity levels can be configured and switched instantly, making it easy to move between precision aiming and fast-paced action.

The classic shape is comfortable for extended gaming sessions, while the lightweight design supports quick movements and effortless control.

**Custom RGB Lighting with LIGHTSYNC Technology**
LIGHTSYNC RGB lighting transforms the G203 into more than just a gaming mouse. Users can choose from millions of colors, dynamic lighting effects, and customizable animations through Logitech G HUB software.

Lighting options include:

- Custom static colors and personalized color combinations
- Dynamic RGB animations and color wave effects

- Screen synchronization that reacts to on-screen colors
- Audio visualizer modes that respond to music, games, and media
- Synchronization with compatible Logitech G LIGHTSYNC peripherals

This level of personalization allows users to create a gaming setup that reflects their style while enhancing visual immersion.

**Six Programmable Controls for Greater Flexibility**
The G203 features a proven six-button layout that balances simplicity with versatility. Through Logitech G HUB software, each button can be customized with game commands, shortcuts, system functions, or advanced macros.

Key control benefits include:

- Six programmable buttons
- Custom macro creation
- Shortcut and command assignments
- Quick access to frequently used functions
- Personalized profiles for different games and applications

**Precision Click Performance**
Logitech's exclusive metal spring button tensioning system helps improve click consistency and responsiveness. The left and right buttons deliver accurate actuation and a crisp feel, ensuring dependable performance during intense gaming sessions.

This optimized button design contributes to greater control, helping players execute actions with confidence and precision.

**Advanced Personalization with Logitech G HUB**
Logitech G HUB software unlocks the full potential of the G203 by allowing users to customize lighting, button assignments, and DPI settings. Profiles can be tailored for individual games or workflows, creating a more efficient and personalized experience.

Users can:

- Configure up to five DPI presets
- Create custom RGB lighting effects
- Assign commands and macros
- Save personalized settings
- Manage multiple gaming profiles

**Onboard Memory for Convenient Portability**
The onboard memory function allows users to save custom settings directly to the mouse. This means preferred DPI levels, button mappings, and lighting configurations can travel with the device, providing a consistent experience across different computers without repeated setup.

**Technical Details**

- Part Number / SKU: 910-005796
- Sensor Resolution: 200 to 8,000 DPI
- Programmable Buttons: 6
- USB Report Rate: 1000Hz
- RGB Lighting: LIGHTSYNC RGB
- Onboard Memory: Yes
- Software Support: Logitech G HUB
- Color: Black

**Why Choose the Logitech G203 LIGHTSYNC**

The Logitech G203 LIGHTSYNC offers an excellent balance of performance, customization, and value. With accurate tracking, programmable controls, vibrant RGB lighting, and onboard profile storage, it is a strong choice for gamers seeking dependable performance without unnecessary complexity. The inclusion of Part Number 910-005796 also makes identification and ordering straightforward for businesses, resellers, and end users.
