Performance tier:Mid-level gaming

Uses:PC gaming, esports, streaming, general computing, graphic design

Overview:

Logitech G102 LightSync Gaming Mouse - Black

Enhance your gaming experience with the Logitech G102 LightSync gaming mouse. Offering precision, customization, and dynamic lighting effects, it's designed to elevate your performance and aesthetic. Featuring a classic six-button layout, high-performance sensor, and LightSync RGB technology, the G102 is the perfect companion for gamers seeking both style and reliability.

Description:

The Logitech G102 LightSync Gaming Mouse delivers a combination of high-end performance and customizable features to help you game at your best. Equipped with a gaming-grade sensor, adjustable DPI settings (200-8000), and LightSync RGB lighting, it offers endless options for personalization. The mouse includes a 32-bit ARM microprocessor and supports Logitech G HUB software for fine-tuning, while its optimized button tensioning ensures every click is precise. With 16.8 million colors available for lighting customization, you can match the G102 to your unique style or sync it with other Logitech G devices.

Features:

Responsive Gaming Performance

Designed for gamers, the Logitech G102 features a gaming-grade sensor that guarantees smooth, accurate cursor tracking. With DPI settings adjustable from 200 to 8000, you can find the perfect sensitivity to match your playstyle. Whether you're playing fast-paced shooters or strategy games, the G102 offers quick, responsive movements that ensure you never miss a beat.

LightSync RGB Lighting with Endless Customization

With LightSync technology, the G102 mouse offers vibrant RGB lighting that can be personalized across approximately 16.8 million colors. Choose from dynamic lighting effects or create your own color schemes. The mouse can even synchronize with your screen, reacting to in-game color shifts for an immersive experience. Additionally, the Audio Visualizer feature makes the mouse react to sound, flashing in time with music, games, or movies.

Customizable Six-Button Layout

The classic six-button design of the G102 provides a comfortable and familiar layout for any gamer. Customize each button with Logitech G HUB software to assign commands, key binds, or system controls. This allows you to streamline your gameplay and make your gaming sessions more efficient. Whether you're casting spells in an RPG or executing complex strategies in a shooter, the G102's buttons are responsive and easy to use.

Precision with Optimized Button Tensioning

Each left and right button on the G102 has been equipped with Logitech's exclusive metal spring tensioning system. This

ensures precise and consistent actuation for every click, providing a reliable and responsive experience during even the most intense gaming moments.

Easy Setup with Logitech G HUB Software

For gamers who want full control over their mouse's performance and appearance, the G102 is compatible with the free Logitech G HUB software. It allows you to adjust the mouse's lighting, DPI settings, and button functions to suit your preferences. G HUB software also lets you save up to five profiles with different configurations, making it easy to switch between setups for various games or tasks. The software is intuitive and simple to set up, ensuring a seamless experience whether you're new to gaming peripherals or a seasoned pro.

Key Benefits

- Customizable RGB lighting with 16.8 million colors
- Adjustable DPI (200-8000) for precise control
- Optimized button tensioning for reliable clicks
- Six programmable buttons for a tailored gaming experience
- Seamless integration with Logitech G HUB software for deeper customization
- Audio visualizer reacts to sound for a fun, interactive experience

The Logitech G102 LightSync Gaming Mouse combines cutting-edge performance with advanced customization options, making it the ideal choice for gamers who want to elevate both their gameplay and their setup.
