Logitech R500s Laser presentation remote - Graphite - 2.4GHz / Bluetooth

Product Overview

Logitech R500s Laser presentation remote - Graphite - 2.4GHz / Bluetooth, 20 m Wireless range, 910-006527

Specifications

Overview Summary:

Enhance your presentations with the Logitech R500s Laser Presentation Remote. Designed for professionals in South Africa, it allows smooth slide navigation from up to 20 meters away. The red laser pointer helps highlight key points with precision, and the ergonomic design ensures a secure and comfortable grip during long sessions. Compatible with Windows, macOS, Chrome OS, and Linux, this remote is ideal for any presenter looking to deliver clear, confident presentations. Shop now to elevate your presentation game.

Performance tier: Professional

Uses: Business presentations, teaching, office meetings, lectures, conferences

Overview:

Logitech R500s Laser Presentation Remote - Graphite
Deliver engaging and professional presentations with the Logitech R500s Laser Presentation Remote. Designed for both comfort and control, this remote allows you to navigate slides and highlight key points effortlessly, making every presentation smooth and impactful.

Description:

The R500s Laser Presentation Remote offers a reliable 20-meter wireless range, compatibility with Windows and macOS, and a bright red laser pointer for precise highlighting. Its ergonomic design and intuitive three-button layout make it easy to use, while optional Logitech Presentation App support lets you customize controls, track battery life, and set on-screen timers for seamless presentations.

Features:

Effortless Presentation Control
Move freely during your presentation without worrying about staying close to your computer. The R500s lets you navigate slides and highlight critical points up to 20 meters away, making it ideal for classrooms, meeting rooms, and conference halls.

Simple and Reliable Operation
Focus entirely on delivering your presentation. The R500s is easy to set up and hassle-free, ensuring smooth, uninterrupted control over your slides without distractions.

Intuitive Slide Navigation
Its three-button layout allows confident, precise navigation. You don't need to look down at the remote-switch between slides seamlessly while maintaining eye contact with your audience.

Bright Red Laser Pointer
Highlight important details in your slides with a clear and visible red laser pointer. Perfect for pointing out key areas in charts, images, and graphs.

Advanced Customization with Logitech Presentation App
Enhance your presentations with the Logitech Presentation App. Customize button functions, track battery levels, set on-screen timers, and prevent your computer from going to sleep during presentations. Compatible with Windows 7 or later and macOS 10.12 or later, the app ensures complete control and a smooth workflow.

Wireless Freedom
Connect your remote via USB receiver or Bluetooth low-energy technology. Enjoy complete mobility and flexibility from up to 20 meters away, letting you engage your audience from anywhere in the room.

Comfortable and Secure Grip
Designed to fit naturally in your hand, the R500s features a soft rubber surface and textured buttons. This ensures a secure grip and comfortable handling, even during long presentations.
