Performance tier:Professional Office |**Uses:**Office work, productivity, remote work, general computing, secure enterprise use

Overview:

Logitech M240 for Business Wireless Mouse

The Logitech M240 for Business is an affordable wireless mouse designed for professional environments, combining reliable performance, enhanced security, and silent operation. Its ambidextrous design, long battery life, and versatile connectivity make it an ideal choice for office setups of any size.

Description:

The M240 for Business delivers smooth optical tracking with up to 4000 dpi resolution, three intuitive buttons, and a comfortable scroll wheel. Silent Touch technology reduces noise, making it perfect for open offices. Pre-paired with a Logi Bolt USB Type-A receiver and supporting Bluetooth, it offers secure connections with robust encryption. Made with 48% post-consumer recycled plastics and responsibly sourced packaging, the M240 supports sustainability without compromising performance.

Features:

Secure and Reliable Wireless Connectivity

Logitech's M240 for Business ensures fully encrypted connections through the Logi Bolt receiver. FIPS-compliant security safeguards your data, while connectivity remains strong up to 10 meters. Even in busy wireless environments, the mouse maintains low latency and stable performance, making it ideal for enterprise use.

Quiet Operation and Comfortable Design

Silent Touch technology reduces clicking sounds for a quieter work environment. The ambidextrous design accommodates both left- and right-handed users, while the contoured shape provides all-day comfort. Its long-lasting AA battery supports up to 18 months of use, minimizing interruptions and maintenance.

Sustainable Materials and Packaging

The M240 incorporates 48% certified post-consumer recycled plastics, giving new life to discarded electronics and helping reduce environmental impact. Its packaging is made from FSC-certified paper, supporting responsible forest management. Logitech's commitment to sustainability extends to every stage of the product lifecycle.

Easy Setup and Flexible Connectivity

Pre-paired with the Logi Bolt receiver, the M240 works immediately out of the box. Bluetooth connectivity adds extra flexibility for devices without USB ports. Its plug-and-play design ensures fast and effortless deployment in office environments.

Customizable and Managed for the Enterprise

With Logitech Options+, users can personalize button functions and scroll settings to improve workflow efficiency. Logitech Sync provides IT teams with visibility and management tools for all company-issued peripherals. Logi Tune allows employees to check battery levels and device status quickly.

Reliable Support and Global Availability

The M240 is available worldwide, certified in over 100 countries, and compatible with major operating systems, including Chromebook. Backed by a two-year limited hardware Warranty and dedicated ProSupport, it ensures reliable support and peace of mind for businesses of any size.

A Responsible Choice for Offices

By choosing the Logitech M240 for Business, you are investing in a sustainable, secure, and user-friendly mouse. Its recycled materials, quiet operation, and energy efficiency make it a practical solution for modern workspaces.
