About this product

The Logitech M171 Red Wireless Mouse (910-004641) delivers reliable 2.4GHz wireless connectivity, smooth optical tracking and convenient plug-and-play operation for everyday computing. Featuring a compact, ambidextrous design, 1000 DPI tracking, a scroll wheel and a wireless range of up to 10 metres, this red and black mouse is ideal for home, office and laptop use. Powered by 1 x AA battery with a battery life of up to 12 months, it offers dependable performance without the clutter of cables. Buy the Logitech M171 wireless mouse online for convenient computing in South Africa.

Overview Summary

Logitech M171 Red Wireless Mouse - 910-004641

The Logitech M171 is a compact wireless computer mouse designed for everyday productivity, browsing and general computer use. Its 2.4GHz wireless connection uses a USB nano receiver to provide a wireless range of up to 10 metres, allowing you to work without a mouse cable restricting your desk space. The plug-and-play setup makes it easy to get started by connecting the receiver to an available USB port.

Featuring smooth optical tracking with 1000 DPI sensitivity, three buttons and line-by-line scrolling, the M171 provides straightforward cursor control for everyday tasks. Its ambidextrous shape accommodates both left-handed and right-handed users, while its portable design makes it suitable for laptop bags and mobile workstations. The included AA battery offers up to 12 months of battery life, depending on usage and computing conditions.

Performance tier: Entry-level wireless mouse

Uses: Office work, home computing, web browsing, online learning, laptop use, document editing, everyday productivity

Description

The Logitech M171 Red Wireless Mouse is designed to make everyday computer use simple and convenient. Its red and black finish adds a distinctive look, while the compact shape makes it easy to carry between home, the office and study environments. With no wired mouse connection required, it helps maintain a tidy workspace and gives you greater flexibility when using a compatible desktop computer or laptop.

The mouse connects through a 2.4GHz wireless USB receiver and provides a wireless range of up to 10 metres under suitable conditions. Setup is straightforward: insert the receiver into an available USB port and start using the mouse. No Bluetooth connection is required. Its optical tracking technology and 1000 DPI sensitivity support responsive cursor movement for routine tasks such as navigating websites, editing documents, managing files and working with spreadsheets.

The three-button layout includes left-click, right-click and a middle-click scroll wheel for convenient navigation. The ambidextrous design suits both left-handed and right-handed users, making it a practical choice for shared workstations and everyday personal computing.

Powered by one AA battery, the Logitech M171 offers up to 12 months of battery life, depending on use and computing conditions. An on/off switch and automatic sleep functionality help conserve power. For users who need a portable, easy-to-use wireless mouse for work, study or home entertainment, the M171 combines straightforward operation with practical everyday functionality.

Features

The Logitech M171 combines wireless convenience, practical controls and a portable design for everyday computer use.

- 2.4GHz wireless connectivity: Connects through the included USB receiver, reducing cable clutter on your desk.
- Wireless range up to 10 metres: Allows flexible positioning when working away from your computer, depending on environmental and computing conditions.

- Plug-and-play setup: Insert the USB receiver into an available USB port to get started without a separate Bluetooth pairing process.
- 1000 DPI optical tracking: Provides smooth cursor control for browsing, document editing and general productivity.
- Three-button operation: Includes left-click, right-click and middle-click functionality for familiar navigation.
- Optical scroll wheel: Supports controlled, line-by-line scrolling through documents and web pages.
- Ambidextrous design: Suitable for both left-handed and right-handed users.
- Compact and portable: Easy to carry with a laptop for mobile work, study or travel.
- Up to 12 months of battery life: Uses one AA battery, with actual battery life depending on usage and computing conditions.
- Power-saving features: An on/off switch and automatic sleep mode help conserve battery power.
- Broad operating system compatibility: Supports compatible Windows, macOS, ChromeOS and Linux systems with an available USB port.

Any hand, anywhere
The compact, wireless M171 has a fully ambidextrous design that easily fits within your laptop bag, so you can get to work anywhere-whether you're left- or right-handed.

Plug & play wireless
Connect in 3 seconds and get up to 10 meters of wireless freedom with a strong, reliable USB receiver. That means no delays, no dropouts. M171 is compatible with Windows, macOS, Chrome OS and Linux and works instantly when you plug the USB receiver into your computer or laptop.

Easy Navigation, Smooth Control
Easy navigation thanks to a controlled line-by-line scrolling and optical tracking. The optical sensor gives you smooth and accurate cursor control on almost any surface. That means accurate mouse movements with no more annoying missed clicks.

Quality you can rely on
The mouse is built with the same high quality standards that have made Logitech the global leader for mice and keyboards. Durable and reliable, M171 also works up to 12 months without changing batteries thanks to the on/off switch button and auto-sleep power-saving mode.

Better than a touchpad
Using a mouse is more ergonomic than a touchpad. The compact shape and wireless capability lets you work comfortably -at home, the office, or anywhere in between.

Decades of Design Excellence
We bring over 25 years of expertise and innovation creating mice of various sizes and shapes that provide an extra degree of comfort. Our solutions are meticulously crafted to fit right- or left-handed users, making it easier to find the product that's right for you.

FAQ

How does the Logitech M171 wireless mouse connect?

The Logitech M171 connects through its included 2.4GHz USB nano receiver. Insert the receiver into an available USB port on a compatible computer to start using the mouse.

Does the Logitech M171 support Bluetooth?

No. The Logitech M171 uses a dedicated USB nano receiver for its wireless connection and does not connect through Bluetooth.

What is the wireless range of the Logitech M171?

The Logitech M171 offers a wireless range of up to 10 metres. Actual range may vary depending on environmental conditions

and the connected computer.

What is the DPI of the Logitech M171 mouse?

The Logitech M171 has 1000 DPI optical tracking for smooth cursor control during everyday computing tasks.

How long does the Logitech M171 battery last?

The mouse offers up to 12 months of battery life from one AA battery. Actual battery life depends on usage and computing conditions.

Is the Logitech M171 suitable for left-handed users?

Yes. Its ambidextrous design is suitable for both left-handed and right-handed users.

Which operating systems are compatible with the Logitech M171?

The Logitech M171 supports compatible Windows, macOS, ChromeOS and Linux systems. A compatible USB port is required for the included wireless receiver.

Is the Logitech M171 suitable for laptops?

Yes. Its compact design and wireless connection make it suitable for laptops, mobile workstations and everyday computing at home, work or school.

Does the Logitech M171 require software installation?

Basic mouse operation uses plug-and-play connectivity through the USB receiver and does not require a separate software installation. Optional software may be available for supported systems.

What is included with the Logitech M171 Red Wireless Mouse?

The package includes the wireless mouse, USB nano receiver, one pre-installed AA battery and user documentation.
