About this product

The Logitech M196 Graphite Bluetooth Mouse (910-007459) is a compact, wireless mouse designed for comfortable everyday computing at home, in the office or while travelling. Featuring Bluetooth Low Energy connectivity, 1000 DPI optical tracking, an ambidextrous design and a mechanical scroll wheel, it delivers reliable cursor control without requiring a USB receiver. With up to 12 months of battery life and a lightweight 76 g design including the battery, this mouse is a practical choice for laptops and compatible Bluetooth devices. Buy the Logitech M196 Bluetooth Mouse online today for convenient wireless productivity in South Africa.

Overview Summary

Logitech M196 Graphite Bluetooth Mouse

The Logitech M196 is a compact wireless mouse built for everyday productivity, offering Bluetooth Low Energy connectivity for a convenient cable-free workspace. Its 1000 DPI optical tracking supports smooth cursor movement, while the mechanical scroll wheel enables controlled line-by-line navigation through documents, websites and spreadsheets.

Designed for both left-handed and right-handed users, the M196 features a comfortable, contoured shape that is easy to carry in a laptop bag. Its single AA battery provides up to 12 months of battery life, depending on usage conditions. The graphite finish incorporates certified post-consumer recycled plastic in the mouse's plastic parts, making it a practical option for users seeking a more resource-conscious accessory.

Performance tier:Entry-level everyday productivity

Uses:Office work, home computing, laptop navigation, web browsing, document editing, studying, travel and general everyday computing

Overview

Meet M196, the reliable Bluetooth mouse that frees up your workspace, connects in seconds, and is durably made with recycled plastic. The compact, contoured shape design and 12 months of battery life, let you focus on what you do best.

Description

The Logitech M196 Graphite Bluetooth Mouse is designed to make everyday computer use simple, comfortable and convenient. Its compact form and contoured shape make it suitable for desk use or carrying alongside a laptop, while the ambidextrous design accommodates both left-handed and right-handed users.

Bluetooth Low Energy connectivity allows the mouse to pair with compatible computers and mobile devices that support external Bluetooth mice. Because it connects wirelessly without a separate USB receiver, it helps keep your workspace tidy and leaves USB ports available for other peripherals. The wireless connection has a stated range of up to 10 metres, although actual range may vary depending on the environment and device conditions.

The 1000 DPI optical tracking system provides responsive cursor movement for common tasks such as browsing, working with documents, managing spreadsheets and navigating applications. The mechanical scroll wheel supports line-by-line scrolling for controlled navigation through digital content.

Powered by one pre-installed AA battery, the Logitech M196 offers up to 12 months of battery life under suitable usage conditions. An on/off switch helps manage power, while the pairing mode makes it straightforward to connect the mouse to a compatible device. The graphite model also incorporates certified post-consumer recycled plastic in its plastic parts.

For South African home users, students and office professionals who need straightforward wireless navigation, the Logitech M196 provides a compact everyday computing solution.

Features

The Logitech M196 combines convenient wireless connectivity with practical controls for everyday computer use.

- Bluetooth Low Energy connectivity: Connect to compatible Bluetooth-enabled computers and mobile devices without a separate USB receiver.
- 1000 DPI optical tracking: Supports smooth cursor control for browsing, office applications and general productivity.
- Ambidextrous design: The shape is suitable for both left-handed and right-handed users.
- Compact and lightweight construction: The mouse measures 100 x 60 x 38 mm and weighs 76 g with the battery, making it convenient to carry.
- Mechanical scroll wheel: Provides line-by-line scrolling for controlled navigation through documents and webpages.
- Up to 12 months of battery life: A single AA battery provides extended use between battery changes, depending on usage conditions.
- 10 m wireless range: Supports wireless operation within the stated range, subject to environmental and computing conditions.
- On/off switch: Allows you to switch the mouse off when it is not in use.
- Recycled plastic content: The graphite model uses certified post-consumer recycled plastic in its plastic parts. The stated 67% recycled plastic content excludes the printed wiring assembly and packaging.
- Pairing mode: A long press activates pairing mode so the mouse can be connected through the compatible device's Bluetooth settings.

Wireless, comfortable, easy

Meet M196, the reliable Bluetooth(RegTM) mouse that frees up your workspace, connects in seconds, and is durably made with recycled plastic. The compact, contoured shape design and 12 months of battery life, let you focus on what you do best.

Pair in seconds with bluetooth

M196 connects in seconds with a reliable pair and play Bluetooth(RegTM) connection-no dongle or port required.

Comfortable shape, compact design

It's comfortable and mobile mouse shape is small enough to toss in a bag and the ambidextrous design guides either hand into a natural position.

Made with recycled plastic. Made to last.

Plastic parts in M196 mouse include certified post-consumer recycled plastic (67% for Graphite, and 66% Off-white and Rose).

Easy navigation, precise control

Thanks to controlled line-by-line scrolling and optical tracking, M196 has smooth and accurate cursor control on almost any surface.

Quality you can rely on

12-month battery life and auto sleep help you go longer between AA battery changes.

What's in the Box

FAQ

How does the Logitech M196 Bluetooth Mouse connect to a computer?

The Logitech M196 connects through Bluetooth Low Energy. Activate pairing mode by pressing and holding the pairing button, then select the mouse in the compatible computer's Bluetooth settings. A separate USB receiver is not required.

Is the Logitech M196 compatible with Windows and Mac?

Yes. The mouse supports Windows 10 or later and macOS 11 or later. It can also work with other Bluetooth-enabled computers or mobile devices that support external mice through the HID profile. Check your device's compatibility before purchasing.

What is the DPI of the Logitech M196 mouse?

The Logitech M196 features 1000 DPI optical tracking for everyday cursor control, including web browsing, document editing and general office tasks.

How long does the Logitech M196 battery last?

The mouse offers up to 12 months of battery life from one AA battery. Actual battery life varies according to usage conditions. One AA battery is included and pre-installed.

Does the Logitech M196 require a USB dongle?

No. The Logitech M196 uses Bluetooth Low Energy and connects to compatible devices without a separate USB receiver, helping keep USB ports available for other accessories.

Can left-handed users use the Logitech M196?

Yes. Its ambidextrous design is intended to accommodate both left-handed and right-handed users.

What is the wireless range of the Logitech M196?

The stated wireless range is up to 10 metres. Actual performance may vary depending on the surrounding environment, interference and the connected device.

Is the Logitech M196 suitable for gaming?

The Logitech M196 is designed primarily for everyday computing and productivity. Its 1000 DPI tracking is suitable for general navigation, but users seeking specialised gaming controls or gaming-focused performance should check the requirements of their games before choosing a mouse.

What is included with the Logitech M196 Graphite Mouse?

The package includes one Logitech M196 Graphite Bluetooth Mouse, one pre-installed AA battery and user documentation.
