Bitdefender Antivirus Plus 2013 5 Users

Product Overview

Bitdefender Antivirus Plus 2013 5 Users.

Specifications

Overview:

Bitdefender's excellent performance was confirmed again in September with the latest results from independent testing. The elite anti-virus company has the highest year-to-date score in AV-TEST's rigorous, independent trials, beating competitors including Norton, Kaspersky and McAfee the independent lab's test results.

Anything Less is Second Best!
The achievement crowns a year of accolades and awards, including PC Mag's Editor's Choice, distinctions from reviewers such as CNET, Laptop Magazine, PC PRO, WebUser, PC Achat and Micro Actuel, and top results from leading industry organizations including AV-Comparatives and VB100.

Not just any security..Silent Security!
How effective can an antivirus be if you have to be a rocket scientist to properly use it? Bitdefender Autopilot quietly makes all the security-related decisions for you - allowing you to enjoy your PC without interruptions or slowdowns.

Bank & Shop online with complete confidence!
Never worry about hackers stealing your account information again! Bitdefender Safepay automatically opens all your e-banking and e-shopping pages in a separate iron-clad, secure browser.

Features:

Unparalleled Security
Bitdefender stops emerging e-threats that other products miss by capitalizing on live and virtualized behavior-based detection, in addition to cloud-based services. *AV-Test, May 2012: Overall Highest Score for Protection, Repair and Usability

Bitdefender Safepay
Keeps hackers at bay by automatically opening all your online banking pages in a separate, secure browser.

MyBitdefender dashboard

See all the status and licensing information about your software and services in your own, MyBitdefender dashboard. Now accessible from anywhere, anytime, from any Internet-connected device.

Security Widget
Enables you to keep track of all of your security related tasks, plus lets you quickly and easily drag-and-drop files for quick scanning for viruses-right from your desktop!

Parental Control
Blocks inappropriate content, restricts Web access between certain hours, and helps you remotely monitor your children's online activity - even on Facebook!

USB Immunizer
Immunizes any Flash Drive from viruses, when they are connected to your computer, so that you never worry again about USBs infecting you or your friends.

Active Virus Control
A proactive, dynamic detection technology which monitors processes' behavior in real-time, as they are running, and tags suspicious activities.

Rescue Mode
If e-threats, such as rootkits, cannot be removed from within the Windows operating system, the computer is re-booted in Rescue mode-a trusted environment which is then used for cleanup and restoration.

Vulnerability Scanner
Checks for missing or outdated security software, missing Windows security patches, as well as potentially unsafe system settings.

Absolute Silence
Save time and avoid all hassles - the Autopilot makes the security-related decisions for you! Bitdefender Autopilot - Bitdefender Autopilot provides a hassle-free experience by making optimal security-related decisions without input from you. This means no pop-ups, no alerts, nothing to configure.

Safe Social Networking
You trust your online friends. But do you trust their computers? Protect yourself, and your friends, from e-threats that attempt to exploit the trust you've built with them. Social Network Protection - Bitdefender filters/blocks social-networking specific e-threats by scanning the links you receive from your Facebook and Twitter friends, monitors your privacy settings, and much more! Search Advisor - The Link Filter relies on intelligence provided by Bitdefender Cloud services to flag malware and phishing attempts in search engine results.

Total Privacy
Threats to your privacy keep diversifying. Your e-mail, your messaging, your entire Web presence and activities can be targeted. Bitdefender addresses them all, protecting your data with a range of specialized modules and functions. Personal Data Filter - Prevents critical data (such as anything even resembling your social security number) from ever leaving your computer. Antiphising - Analyzes and blocks websites that support various scams or credit card phishing attempts.

Full speed!
Bitdefender 2013 takes "scheduled scanning" to a whole new level, as the scanning only takes place when your system is idle. Scan Dispatcher - The Scan Dispatcher finds and uses time-slices when system resource usage falls below a certain threshold to perform recurring scans of your entire system. This way Bitdefender does not interfere with user-initiated actions and does impact system responsiveness.

Product Code	9130
Specifications	
Minimal system requirements	Operating system: Microsoft Windows XP SP3 (32 bit), Vista (SP2), Microsoft Windows 7 (SP1), Microsoft Windows 8
	CPU: 800MHz processor
	Memory (RAM):
	1 GB
	Available free hard disk space: 1.8 GB free space (at least 800 MB on the system drive)
Recommended system requirements	Operating system: Microsoft Windows XP SP3 (32 bit), Vista (SP2), Microsoft Windows 7 (SP1), Microsoft Windows 8
	CPU: Intel CORE Duo (1.66 GHz) or equivalent processor
	Memory (RAM):
	1 GB (Microsoft Windows XP)
	1.5 GB (Microsoft Windows Vista, Microsoft Windows 7 and Microsoft Windows 8)
	Available free hard disk space: 2.8 GB free space (at least 800 MB on system drive)
Software requirements	Internet Explorer 7 and higher
	.NET Framework 3.5 (automatically installed by Bitdefender if necessary)
Supports/Integrates with	Firefox 3.6 and higher
	Thunderbird 3.0.4
	Outlook 2007, 2010
	Outlook Express and Windows Mail on x86
