Logitech MK710 Cordless Desktop - Wireless Keyboard and Mouse

## Product Overview

Logitech Wireless Keyboard and Mouse - MK710 Cordless Desktop, Logitech Unifying receiver, LCD dashboard, Logitech Incurve keys with a cushioned palm rest, Laser mouse with Hyp0erscroll, Up to three-year battery life

## Specifications

**Overview:**

**Power-packed**
The up to three-year battery life for both keyboard and mouse makes this combo so hassle-free you just might forget it uses batteries at all.

**Dip into comfort**
With Logitech Incurve keys and a cushioned palm rest, this low-profile keyboard almost feels like it's custom-made for you.

**Small wonder**
Logitech Unifying receiver, the tiny wireless receiver that stays in your laptop and lets you add devices as you need them.

**Features:**

**Three-year battery life**
The batteries in both the keyboard and mouse last up to three full years, so you can forget the hassle, expense and waste of frequent battery changes.

**Logitech Incurve keys**
Concave keys with softly-rounded edges position your fingers properly and invite your fingertips to glide from key to key, keeping you comfortable for hours.

**Low profile, longer key travel**
Not easily found on many low-profile and laptop keyboards, longer key travel improves comfort and your overall typing experience.

**Cushioned palm rest**
Your hands can relax, the cushioned palm rest feels so much better than hard plastic.

**Sculpted mouse**
It positions your hand and fingers comfortably and naturally.

**Hyper-fast scrolling**
You'll fly through long documents and Web pages with just a flick of the nearly frictionless scroll wheel.

**LCD dashboard**
It gives you at-a-glance icon status of your battery, Caps Lock, Scroll Lock and Num Lock, so you won't skip a beat while typing.

**Logitech Unifying receiver**
The tiny receiver stays in your laptop. Plus, you can easily add another compatible wireless mouse or keyboard, without the hassle of multiple USB receivers.

**Logitech Advanced 2.4 GHz wireless connectivity**
You can confidently work and play where you please. Encrypted, secure cordless technology ensures you a reliable connection with virtually no lags or dropouts.
