Performance tier: Mid-range productivity

Uses:office work, remote work, travel, home computing, multi-device setups

Description

The Logitech Pebble 2 Combo is engineered for users who need a reliable, portable and quiet workspace solution. Its minimalist design combines functionality with modern aesthetics, making it suitable for both professional and personal

environments. The slim profile keyboard is easy to carry and fits neatly into compact workspaces, while the lightweight mouse complements the setup with smooth and precise tracking.

Designed for multi-device users, the combo allows pairing with up to 3 devices and switching between them instantly. This makes it ideal for professionals working across multiple systems or devices. The keyboard delivers a comfortable typing experience with low-profile, scooped keys that reduce noise and improve typing accuracy. The mouse features Silent Touch Technology, significantly reducing click noise without compromising performance.

With extended battery life of up to 36 months for the keyboard and 24 months for the mouse, this combo ensures long-lasting performance. The inclusion of Logi Bolt support enhances wireless stability, while Bluetooth connectivity provides flexibility across various devices and operating systems.
