Specifications

About this product

The Logitech G316 X 98 is a white 98% wired mechanical gaming keyboard with tactile switches, hot-swappable switch support, customizable PBT keycaps, LIGHTSYNC RGB lighting and an 8 kHz report rate. Its compact layout retains a numeric keypad while providing fast, responsive input and flexible customization for PC gaming. Buy now from our website for a feature-rich Logitech gaming keyboard designed for serious play and everyday use in South Africa.

Overview Summary

Logitech G316 X 98 White Gaming Keyboard combines a space-efficient 98% layout with mechanical tactile switches and wired USB connectivity. The keyboard features an 8 kHz report rate, hot-swappable switches, customizable PBT keycaps and LIGHTSYNC RGB lighting for a responsive and personalized gaming setup.

The 98% layout keeps the numeric keypad while reducing the overall footprint compared with a traditional full-size keyboard. A programmable control dial, onboard controls and an interactive LED dot matrix display provide additional control and customization through supported software.

Performance tier: High-performance gaming

Uses: PC gaming, competitive gaming, home computing, programming, general desktop use

Overview

Level up your play with G316 X, a wired gaming keyboard that delivers 8 kHz report rate performance and versatile customization that all PC gamers need. With a joyful LED display, hot-swappable switches and customizable PBT keycaps, G316 X makes game-ready technology accessible to all.

Description

ComX Computers

Product Specification Sheet

The Logitech G316 X 98 is designed for PC gamers who want a compact mechanical keyboard without giving up the convenience of a numeric keypad. Its 98% layout retains the essential full-size key arrangement while reducing unnecessary spacing, making it suitable for gaming desks where efficient use of space is important.

The keyboard uses Logitech tactile mechanical switches to provide physical feedback during key presses. The switches are hot-swappable, allowing compatible switches to be changed without replacing the complete keyboard. This provides greater flexibility for users who want to customize the feel of their keyboard over time.

For gaming performance, the G316 X 98 supports an 8 kHz report rate for rapid communication between the keyboard and connected computer. This is complemented by anti-ghosting and multi-key input support for reliable recognition of simultaneous key presses during gameplay.

LIGHTSYNC RGB lighting provides customizable illumination across the keyboard, while the PBT keycaps are designed for a durable key surface. The keyboard also includes onboard controls and a control dial for convenient adjustment and access to supported functions.

The detachable 1.8 m USB-C to USB-A cable provides a wired connection to a compatible computer. The white finish gives the keyboard a clean appearance that suits gaming, work and general desktop setups. Buy this Logitech G316 X 98 online for a responsive mechanical gaming keyboard with extensive customization options.

FAQ

What is the Logitech G316 X 98?

The Logitech G316 X 98 is a 98% wired mechanical gaming keyboard with tactile switches, a numeric keypad, LIGHTSYNC RGB lighting, hot-swappable switches and an 8 kHz report rate.

Is the Logitech G316 X 98 a mechanical keyboard?

Yes. The G316 X 98 uses mechanical tactile switches designed to provide physical feedback during key presses.

Does the Logitech G316 X 98 support hot-swappable switches?

Yes. The keyboard uses a hot-swappable switch design, allowing compatible mechanical switches to be changed without replacing the complete keyboard.

What is the report rate of the Logitech G316 X 98?

The Logitech G316 X 98 supports a report rate of up to 8 kHz for rapid communication between the keyboard and computer.

Does the Logitech G316 X 98 have RGB lighting?

Yes. It features customizable LIGHTSYNC RGB lighting that can be configured using supported Logitech G software.

Does the Logitech G316 X 98 have a numeric keypad?

Yes. The 98% layout includes a dedicated numeric keypad while maintaining a more compact overall footprint than a traditional full-size keyboard.

Does the Logitech G316 X 98 have a detachable cable?

Yes. The keyboard uses a detachable USB-C connection and includes a 1.8 m USB-C to USB-A cable.

What keycaps are used on the Logitech G316 X 98?

The keyboard uses customizable PBT keycaps designed for a durable and consistent typing surface.

What computers are compatible with the Logitech G316 X 98?

The keyboard is compatible with computers using Windows 10 or later and macOS 12 or later, with a suitable USB-A connection.

Is the Logitech G316 X 98 suitable for gaming?

Yes. The mechanical tactile switches, up to 8 kHz report rate, anti-ghosting, RGB lighting, programmable functions and compact 98% layout make it suitable for PC gaming.
