Overview Summary

Logitech MK470 Slim Graphite Wireless Keyboard and Mouse Combo

The Logitech MK470 Slim Graphite is a compact wireless keyboard and mouse set designed for efficient everyday computing.

ComX Computers

Product Specification Sheet

Its ultra-slim profile and minimalist graphite finish create a clean, modern workstation while helping save valuable desk space. The keyboard features low-profile scissor keys for a familiar laptop-style typing experience, a dedicated number pad and 12 function shortcuts for convenient access to frequently used functions.

The included wireless mouse features a smooth, ambidextrous pebble-shaped design, high-precision optical tracking and three buttons for comfortable navigation. Quiet keyboard operation and mouse clicks engineered to reduce clicking noise make this combo suitable for shared workspaces, home offices and study areas. A single USB nano receiver provides a reliable 2.4 GHz wireless connection with a range of up to 10 metres, while the keyboard offers up to 36 months of battery life and the mouse up to 18 months under stated usage conditions.

Performance tier: Everyday productivity

Uses: Home office, business computing, studying, office administration, document editing, spreadsheets, browsing, laptop workstations, shared workspaces

Overview

Make any space minimalist, modern, and whisper-quiet with the MK470 Slim Wireless Combo - an ultra-thin and design-forward keyboard and mouse combo perfect for getting things done efficiently - even in the tightest desk spaces.

Description

The Logitech MK470 Slim Graphite Wireless Keyboard and Mouse Combo is designed for users who want a neat, modern workstation without unnecessary cables. Its slim construction and compact footprint make it suitable for smaller desks, home offices, study spaces and professional environments where efficient use of workspace is important.

The keyboard combines a low-profile design with scissor-style keys to deliver a familiar laptop-like typing experience. Its compact layout retains a dedicated number pad, making it practical for entering figures, managing spreadsheets, processing documents and completing everyday office tasks. Twelve function shortcuts provide convenient access to frequently used commands.

The matching graphite wireless mouse features a smooth pebble-shaped body designed for use by either hand. High-precision optical tracking supports everyday navigation, while the three-button layout and mechanical scroll wheel provide straightforward control when browsing websites, working with documents or navigating applications.

Wireless connectivity is provided through a USB nano receiver using a 2.4 GHz connection, with an operating range of up to 10 metres. This helps keep the desktop free from keyboard and mouse cables. The quiet typing and reduced-noise mouse clicks are useful in shared offices, libraries and home workspaces where minimising distractions matters.

Battery efficiency supports extended use between replacements, with a stated battery life of up to 36 months for the keyboard and up to 18 months for the mouse. Actual battery life depends on usage and operating conditions. The Logitech MK470 Slim Graphite is a practical choice for everyday productivity, combining essential input functions, wireless convenience and a space-saving design.

Features

The Logitech MK470 Slim Graphite keyboard and mouse combo combines practical productivity features with a compact, modern design.

- Ultra-slim design: Creates a clean, minimalist workstation and helps save desk space.
- Wireless keyboard and mouse: Reduces cable clutter and supports flexible desk arrangements.
- 2.4 GHz wireless connection: Uses the included USB nano receiver for reliable connectivity up to 10 metres.
- Quiet operation: Designed for quieter typing and mouse clicking in shared environments.
- Low-profile scissor keys: Provide a familiar laptop-style typing feel for daily work.
- Dedicated number pad: Supports convenient numeric entry for spreadsheets, calculations and administrative tasks.
- 12 FN shortcuts: Provide quick access to selected functions and commands.

- Long mouse battery life: Provides up to 18 months of use under stated conditions.
- Graphite finish: Complements modern office equipment and workstation setups.

Own your space

Make any space minimalist, modern, and whisper-quiet with the MK470 Slim Wireless Combo - an ultra-thin and design-forward keyboard and mouse combo perfect for getting things done efficiently - even in the tightest desk spaces.

Minimalist. Modern. Slim

The MK470 Slim Combo stands out for its simplicity. The slim profile and minimalist design transform your keyboard and mouse into a visual statement for a clean, sleek desk setup.

Space-saving productivity

The compact keyboard includes a number pad and 12 FN shortcuts, giving you all the keys you need. The slim mouse is extra portable and you can easily store it in your laptop bag or in your pocket for on-the-go productivity. The combo's smaller footprint means you can work on the tightest desk spaces and keep your mouse comfortably within reach.

Fluid, comfortable typing & mousing

Low-profile scissor keys provide a fluid and familiar laptop-like typing experience. The smooth pebble shape of the ambidextrous mouse feels great in either hand.

Whisper-quiet work

A quiet keyboard and lab-tested, 90% noise-reduced mouse mean an ultra quiet work experience for you and those around you.

Easy, reliable wireless

A simple plug-and-play USB receiver offers a strong 2.4 GHz wireless connection with 10 meters of range . This means you will have a clean, cable-free desk and the freedom to arrange your devices the way you want-where you want.

Go longer between batteries

18-month battery life for the mouse, and 36-month battery life for the keyboard means you don't have to worry about losing power. Both accessories go into battery-saving sleep mode when not in use.

Complete with audio and video

Great video and audio go a long way in boosting communication in virtual meetings and presentations. Add a modern webcam and headset to complete your work-from-home setup. Choose matching colorways or mix and match!

What's in the Box

- Logitech MK470 Slim Graphite wireless keyboard
- Logitech wireless mouse
- USB nano receiver
- 2 AAA batteries for the keyboard
- 1 AA battery for the mouse

FAQ

Is the Logitech MK470 Slim Graphite wireless?

Yes. The keyboard and mouse connect wirelessly through the included USB nano receiver using 2.4 GHz wireless technology, with a range of up to 10 metres.

Does the Logitech MK470 include a number pad?

Yes. The compact keyboard includes a dedicated number pad, making it suitable for spreadsheets, calculations, data entry and office administration.

Is the Logitech MK470 keyboard quiet?

The MK470 is designed for quiet typing with low-profile scissor keys. Its matching mouse also features reduced-noise clicking, making the combo suitable for shared offices and study environments.

How long do the Logitech MK470 batteries last?

The keyboard offers up to 36 months of battery life, while the mouse offers up to 18 months. Actual battery life varies according to usage and operating conditions.

Which batteries does the Logitech MK470 use?

The keyboard uses 2 AAA batteries, and the mouse uses 1 AA battery.

Can the Logitech MK470 be used with a laptop or desktop computer?

Yes. It is suitable for compatible laptops and desktop computers with an available USB port for the wireless receiver. Check operating system compatibility before purchasing.

Does the Logitech MK470 support Bluetooth?

The MK470 uses its included 2.4 GHz USB nano receiver for wireless connectivity. It should not be purchased on the assumption that it supports direct Bluetooth pairing.

Can left-handed users use the Logitech MK470 mouse?

Yes. The mouse has an ambidextrous pebble-shaped design intended to accommodate both left-handed and right-handed users.

Is the Logitech MK470 suitable for office work and studying?

Yes. Its compact design, quiet operation, number pad, function shortcuts and wireless connection make it suitable for everyday office work, online learning, document editing and general computer use.

Does the Logitech MK470 require software to work?

The keyboard and mouse are designed for straightforward setup using the included USB receiver. Basic input functions can be used on compatible systems without requiring additional configuration software.
