Specifications

About this product

The Logitech MK250 Compact Bluetooth Keyboard and Mouse Combo (920-013519) in Graphite delivers convenient wireless connectivity and reliable everyday productivity for home, office and study environments. Featuring a compact keyboard with a numeric keypad, responsive keys, an ambidextrous optical mouse with 1000 DPI tracking and Bluetooth Low Energy connectivity, this keyboard and mouse set saves desk space without sacrificing essential functionality. Enjoy up to 12 months of battery life, a spill-resistant keyboard and a USB receiver-free setup. Buy the Logitech MK250 Bluetooth Keyboard and Mouse Combo online in South Africa for convenient everyday computing.

Overview Summary

Logitech MK250 Compact Bluetooth Keyboard and Mouse Combo - Graphite

The Logitech MK250 is a practical wireless keyboard and mouse combo designed for everyday computing, productivity and

comfortable navigation. Its compact keyboard retains essential keys and a numeric keypad for entering data, working with spreadsheets, typing documents and browsing the web. The responsive deep-profile keys provide a familiar typing experience, while the adjustable tilt legs help create a comfortable typing angle.

The included compact optical mouse features an ambidextrous design, making it suitable for both left-handed and right-handed users. Bluetooth Low Energy technology connects the keyboard and mouse to compatible devices without a separate USB receiver, helping keep USB ports available for other peripherals. With a wireless operating range of up to 10 metres, spill-resistant keyboard construction and replaceable batteries offering up to 12 months of use under suitable conditions, the MK250 is designed for convenient everyday performance.

Performance tier: Entry-level to mainstream everyday productivity

Uses: Home computing, office work, studying, document editing, spreadsheets, web browsing, data entry, remote work

Overview

Connect easy with MK250, a combo that's simple, full-featured, wireless, and made to last with plastic parts using a minimum of 64% recycled materials.

Description

The Logitech MK250 Compact Bluetooth Keyboard and Mouse Combo is designed to simplify everyday computer use with a coordinated wireless keyboard and mouse in a stylish Graphite finish. Its space-saving design suits home offices, business workstations, study desks and compact work areas where efficient use of desk space is important.

The keyboard provides a compact layout with a numeric keypad and essential keys for everyday typing, calculations, document creation and data entry. Its deep-profile keys deliver a familiar typing feel, while tilt legs allow the keyboard to be positioned at an elevated typing angle. The spill-resistant design offers added protection against accidental liquid spills under limited test conditions. It is not designed to be immersed in liquid.

The accompanying optical mouse provides 1000 DPI tracking for routine navigation, browsing, selecting files and working with applications. Its contoured, ambidextrous shape accommodates left-handed and right-handed users. A scroll wheel and three-button design support convenient cursor control and page navigation.

Bluetooth Low Energy connectivity allows the keyboard and mouse to pair with compatible devices without a dedicated USB receiver. The wireless operating range is up to 10 metres under suitable conditions. Both devices use replaceable alkaline batteries and offer up to 12 months of battery life, depending on usage and operating conditions.

The MK250 also incorporates recycled plastic in its construction, with at least 64% recycled plastic in the keyboard and at least 66% in the mouse, excluding specified electronic components and packaging. This makes it a practical choice for users looking for a compact, convenient and more resource-conscious wireless input solution.

Features

The Logitech MK250 combines essential typing and navigation functions with wireless convenience for everyday productivity.

- Bluetooth Low Energy connectivity: Connects wirelessly to compatible devices without requiring a separate USB receiver.
- Compact keyboard design: Helps save desk space while retaining essential keys and a numeric keypad.
- Responsive deep-profile keys: Provide a familiar typing feel for emails, documents and everyday computer tasks.
- Adjustable tilt legs: Allow the keyboard to be positioned at an elevated typing angle.
- Spill-resistant keyboard: Tested to withstand accidental liquid spills of up to 60 ml under limited conditions. Do not immerse in liquid.
- Ambidextrous optical mouse: Supports comfortable everyday use by left-handed and right-handed users.
- 1000 DPI optical tracking: Supports practical cursor movement and accurate everyday navigation.
- Three-button mouse: Includes left-click, right-click and a clickable scroll wheel.

ComX Computers

Product Specification Sheet

- Wireless range up to 10 metres: Provides flexibility when positioning the keyboard and mouse within the supported operating range.
- Up to 12 months of battery life: Helps reduce the frequency of battery replacement, depending on usage conditions.
- Replaceable batteries: Uses 2 x AAA batteries for the keyboard and 1 x AA battery for the mouse.
- Recycled plastic construction: Contains at least 64% recycled plastic in the keyboard and at least 66% in the mouse, subject to the manufacturer's stated exclusions.
- Graphite finish: Provides a coordinated, understated appearance suitable for home and professional workspaces.

Connect easy

Meet Logitech MK250 Bluetooth(RegTM) combo. Easy to connect and easy to set up with a compact and comfortable design, so you can focus on the task at hand.

Connect in seconds

Experience frustration-free connectivity with Bluetooth(RegTM) wireless technology. Simply pair in seconds. You don't need any dongles so you can free up USB ports for other devices.

Durable, reliable performance

Spill-resistant*, robust, and with a 12-month battery life*, MK250 is designed to withstand consistent daily use. That means more focus and peace of mind for you. Made by Logitech, a brand known for quality since 1981. (*Tested under limited conditions (maximum of 60 ml liquid spillage). Do not immerse the keyboard in liquid. , ** Battery life varies with use conditions.)

Compact yet complete

A combo with a small mobile mouse and space-saving keyboard that still includes a numpad and all essential keys. Ideal for tight spaces, MK250 offers efficiency without sacrificing performance or convenience.

Optimal comfort

Enjoy a contoured, ambidextrous mouse and responsive, deep-profile keyboard keys. The MK250 provides a familiar and consistent feel, great for accuracy so you stay focused.

Made to last with recycled plastic

MK250 is built from plastic parts using a minimum of 66% (mouse) and 64% (keyboard) recycled plastic* in addition to uncompromising quality. At Logitech, we design for sustainability and durability. (*Mouse plastic content: minimum 66% post-consumer recycled plastic. **Keyboard plastic content: minimum 64% post-consumer recycled plastic. Excludes plastic in printed wiring assembly and packaging.)

Designed to Belong

Compatible with MacBook Neo laptops. Instant Bluetooth(RegTM) connection. Seamless. Color-matched.

FAQ

Does the Logitech MK250 keyboard and mouse combo use Bluetooth?

Yes. The Logitech MK250 connects through Bluetooth Low Energy and does not require a separate USB receiver.

Is the Logitech MK250 compatible with Windows computers?

Yes. It supports Windows 10 and later on compatible computers with Bluetooth Low Energy connectivity.

Can I use the Logitech MK250 with a Mac?

Yes. The MK250 supports macOS 12 and later on compatible devices with Bluetooth Low Energy connectivity.

Does the Logitech MK250 keyboard have a numeric keypad?

Yes. Its compact keyboard layout retains a numeric keypad for calculations, spreadsheet work and data entry.

Is the Logitech MK250 mouse suitable for left-handed users?

Yes. The mouse has an ambidextrous design intended for comfortable use by both left-handed and right-handed users.

How accurate is the Logitech MK250 mouse?

The optical mouse has a 1000 DPI tracking resolution, making it suitable for everyday navigation, office work, web browsing and general computer use.

How long do the Logitech MK250 batteries last?

The keyboard and mouse each offer up to 12 months of battery life. Actual battery life varies depending on usage and operating conditions.

Does the Logitech MK250 keyboard resist liquid spills?

Yes. The keyboard is spill-resistant and has been tested under limited conditions for spills of up to 60 ml. It must not be immersed in liquid.

What batteries does the Logitech MK250 require?

The keyboard uses 2 x AAA alkaline batteries, and the mouse uses 1 x AA alkaline battery. The batteries are supplied pre-installed.

Is the Logitech MK250 suitable for home and office use?

Yes. Its compact keyboard, numeric keypad, wireless mouse and receiver-free Bluetooth connection make it suitable for home computing, office productivity, studying and everyday computer tasks.

What is the wireless range of the Logitech MK250?

The keyboard and mouse have a wireless operating range of up to 10 metres under suitable conditions.
