Logitech G Driving Force Shifter for G29 / G923 /G920

Product Overview

Logitech G Driving Force Shifter for G29 / G923 /G920, Designed to work with G923 / G29 / G920 Racing wheels, Six speeds with push-down Reverse gear, Steel and leather components for Comfort and durability, Mounts securely to a Racing rig, 941-000132

Specifications

Overview Summary:

Take your racing simulator setup to the next level with the Logitech G Driving Force Shifter for G29, G920, and G923 racing wheels. Featuring a six-speed short-throw gearbox with push-down reverse, this shifter delivers precise and responsive gear changes for a more immersive driving experience on PC, Xbox, and PlayStation platforms.

Built with a durable steel gear shaft and premium leather-wrapped knob and boot, the Logitech Driving Force Shifter is designed for comfort and long-lasting performance. Secure mounting clamps help keep the shifter stable during intense races. Buy now and complete your sim racing rig with a trusted Logitech G accessory built for serious racing enthusiasts in South Africa.

Performance tier:Mid-to-High-End Sim Racing Accessory

Uses: Sim racing, racing simulator setups, driving games, competitive racing games, PC gaming, Xbox racing games, PlayStation racing games

Overview:

The Logitech G Driving Force Shifter is designed to bring a more immersive and realistic feel to sim racing setups. Engineered for compatibility with Logitech G29, G920, and G923 racing wheels, this six-speed shifter delivers smooth and responsive gear changes for racing enthusiasts on PlayStation, Xbox, and PC platforms. Its short-throw design, solid steel shaft, and leather-wrapped gear knob combine to create a premium driving experience that closely mirrors real performance vehicles.

Description:

Built for serious racing simulation fans, the Logitech G Driving Force Shifter combines precision gear engagement with durable construction. The six-speed H-pattern layout with push-down reverse provides authentic shifting action, while the steel gear shaft and hand-stitched leather components add long-term reliability and comfort. Designed to integrate seamlessly with Logitech G racing wheels, it mounts securely to desks and racing rigs for stable performance during intense driving sessions.

Features:

Designed for Logitech G Racing Wheels

This racing shifter is purpose-built for Logitech G923, G29, and G920 racing wheel systems. Whether you are competing in simulation racing games or enjoying casual driving titles, the shifter adds a more natural and engaging layer of control to your setup.

Compatible platforms include:

- Logitech G29 for PlayStation and PC
- Logitech G920 for Xbox and PC
- Logitech G923 racing wheels

The realistic H-pattern layout helps recreate the sensation of driving a manual transmission sports car, making every shift feel deliberate and mechanical.

Premium Build for Long-Term Durability

Constructed using high-quality materials, the Logitech G Driving Force Shifter is engineered for demanding racing sessions. The solid steel gear shaft enhances durability, while the leather-wrapped knob and boot provide a refined finish inspired by high-performance vehicles.

The robust construction helps maintain consistent shifting performance over extended use, making it suitable for both beginner sim racers and experienced competitive drivers.

Key construction highlights:

- Solid steel gear shaft
- Hand-stitched leather knob and boot
- Durable internal mechanism
- Stable mounting design

Precise Six-Speed Short-Throw Action

The six-speed short-throw gearbox is tuned for fast and accurate gear changes. Each shift clicks firmly into place, providing tactile feedback that enhances driving precision during racing simulations.

The push-down reverse gear mechanism prevents accidental engagement while maintaining realistic operation similar to full-size manual transmissions.

Shifting advantages include:

- Six forward gears
- Push-down reverse gear
- Smooth mechanical engagement
- Responsive short-throw action

Stable Mounting for Competitive Racing

Aggressive driving requires a secure setup, and the built-in mounting clamps help keep the shifter firmly attached to desks or racing cockpits. This minimizes movement and wobble during rapid shifts or intense racing moments.

The stable design allows users to maintain focus and consistency throughout long racing sessions.

Expand Your Sim Racing Setup

The Logitech G Driving Force Shifter integrates easily into larger racing simulator configurations. It complements Logitech racing wheels and pedal systems, helping users create a more complete and immersive driving environment.

Whether paired with a dedicated racing cockpit or a desktop setup, the shifter improves realism and control across a wide range of racing games.

Technical Details

- Product: Logitech G Driving Force Shifter
- Part Number / SKU: 941-000132
- Gear Layout: Six-speed H-pattern
- Reverse Gear: Push-down reverse
- Material: Steel shaft with leather-wrapped knob and boot
- Compatibility: Logitech G923, G29, and G920 racing wheels
- Mounting: Integrated table and racing rig clamps
- Color: Black

Why Choose the Logitech G Driving Force Shifter

For players seeking a more authentic sim racing experience, the Logitech G Driving Force Shifter delivers responsive performance, premium materials, and reliable construction in one compact accessory. The realistic shifting feel, stable mounting system, and seamless compatibility with Logitech racing wheels make it a strong addition to any racing simulator setup.

With part number 941-000132, this shifter is an ideal upgrade for users wanting greater immersion and precision during every race.
