Logitech RoomMate - Off White - South Africa / Namibia

Product Overview

Logitech RoomMate - Off White - South Africa / Namibia, 1x HDMI out, 1x HDMI in, 3x USB Type-A 2.0, Gigabit Ethernet, WiFi, CollabOS Appliance for supported Conference cameras and room solution peripherals

Specifications

Overview Summary:

The Logitech RoomMate is a versatile and compact video conferencing system that transforms any meeting room into a fully equipped video conferencing hub. Perfect for small to large spaces, it integrates easily with leading platforms like Zoom Rooms and Microsoft Teams. Offering HD video quality, seamless setup, and flexibility with modular components like Logitech Rally and MeetUp cameras, RoomMate ensures smooth, reliable meetings. Buy now and elevate your collaboration experience!

Performance tier: High-performance

Uses: Video conferencing, team collaboration, conference room setups, digital signage, interactive workplace maps

Overview:

Logitech RoomMate Multi-Platform Video Conferencing System 950-000085
Logitech RoomMate is a purpose-built, high-performance video conferencing appliance designed for small, medium, and large meeting rooms. With its compact design and powerful capabilities, RoomMate makes it easy to deploy and manage a range of video conferencing systems, including Zoom Rooms, Microsoft Teams Rooms on Android, and more. When combined with Logitech's premium conference cameras like the Rally Plus, it transforms any meeting space into a fully equipped, high-quality video conferencing environment.

Description:

The Logitech RoomMate is a versatile computing appliance that simplifies video conferencing for businesses and organizations. Offering seamless integration with popular conferencing platforms, it allows you to easily set up and manage meeting rooms. Whether you're outfitting a small huddle space or a large conference room with up to 46 seats, RoomMate delivers all the power and connectivity needed for smooth, high-definition video calls. With its secure and flexible mounting options, it's designed to fit neatly into any environment, keeping cables out of sight while providing a clean, professional look. Plus, Logitech's commitment to sustainability ensures you're making an eco-friendly choice by using products made with post-consumer recycled plastic.

Features:

Seamless Integration with Leading Video Conferencing Platforms
Logitech RoomMate runs CollabOS, a dedicated software platform that makes it simple to deploy video conferencing solutions like Zoom Rooms, Microsoft Teams Rooms on Android, and more. This appliance-based approach makes setting up and maintaining meeting rooms much easier, especially when paired with Logitech's range of conference cameras, such as the Rally Plus. RoomMate's flexibility allows it to be used in a variety of configurations, whether you're managing one, two, or even three displays (with an additional dongle required for three displays).

Modular Design for Versatility
The RoomMate system is designed for flexibility and scalability. It can be paired with modular components like the Logitech Rally system, MeetUp camera, or even additional collaboration devices such as the Logitech Tap touch controller and Scribe whiteboard camera. These components work together seamlessly to turn any meeting space into a video conferencing hub, empowering users to collaborate effortlessly.

Compact, Powerful, and Easy to Install
With its sleek, low-profile form factor, the Logitech RoomMate delivers all the necessary power for HD video conferencing. Despite its compact size, RoomMate supports a wide range of display setups and integrates easily into your existing office space. The optional Compute Mount ensures that the device can be securely mounted out of sight, reducing clutter and maintaining a clean, professional environment. The mount also offers cable retention, keeping connections tight and organized.

Flexible Audio Options
RoomMate is designed to work with the audio system of your choice, offering full compatibility with the audio solutions provided by Logitech's Rally system or MeetUp cameras. You also have the option to integrate third-party audio systems that are verified by Logitech's partners, ensuring optimal audio performance for your video calls.

Digital Signage and Interactive Maps
In addition to its video conferencing capabilities, RoomMate can be used for digital signage applications. By integrating with Appspace, it allows you to broadcast important announcements and visuals across your workplace, making it ideal for lobbies, hallways, and meeting spaces. For enhanced workplace navigation, Logitech RoomMate can also power interactive maps through Logitech View, making it easy to find meeting rooms, book spaces, and locate colleagues-all in real-time and with minimal effort.

Eco-Friendly Design and Sustainability
Logitech is committed to sustainability, and the RoomMate reflects this dedication. The device's plastic components are made with 33% certified post-consumer recycled plastic, contributing to a reduction in carbon footprint and promoting a circular economy. By choosing Logitech RoomMate, you're not only investing in a high-quality video conferencing solution but also supporting a company committed to making the world more sustainable.

Key Benefits:

- Multi-Platform Support: Easily deploy Zoom Rooms, Microsoft Teams Rooms, and other video conferencing platforms.
- Modular Flexibility: Connect with Rally, MeetUp, and other collaboration devices to create the perfect video conferencing setup.
- Compact Design: A sleek, low-profile appliance that integrates seamlessly into your meeting space.
- Secure and Neat Installation: Mount out of sight with optional mounting accessories to keep your space clean and organized.
- Sustainable Materials: Made with 33% certified post-consumer recycled plastic, reducing environmental impact.
- Digital Signage Capabilities: Easily manage and display visual content across your organization with Appspace integration.

Make the Right Choice for Your Conference Rooms
With the Logitech RoomMate, you gain not just a powerful video conferencing solution, but also a sustainable and easy-to-manage appliance for your office or meeting rooms. Whether you're setting up a small huddle space or a large conference room, RoomMate is the perfect choice for enhancing your video collaboration capabilities while minimizing your environmental footprint.
