## Specifications

### Overview Summary:

Logitech Extend Video Conferencing Accessories Kit is designed to streamline meeting room setups with its plug-and-play simplicity. Offering 4K HDMI support and USB-C connectivity, it enables quick, hassle-free video conferencing with no software installation required. The kit's flexible design ensures compatibility with Android and BYOD setups, making it perfect for diverse work environments. With power delivery options and remote management via Logitech Sync, it's an ideal solution for businesses looking to enhance their conference rooms. Buy now and elevate your team's collaboration experience.

**Performance tier:**Premium

**Uses:**Video conferencing, Meeting room setups, BYOD solutions, Conference camera integration, Remote device management

### Overview:

**Logitech Extend Video Conferencing Accessories Kit 952-000199: Streamline Your Meeting Room Setup**
Bring your meeting to life with Logitech Extend, a versatile solution for video conferencing that simplifies setup and enhances collaboration. Designed for Android and BYOD-based meeting rooms, this kit connects your devices seamlessly via a single USB-C cable, enabling participants to jump into meetings quickly with minimal setup.

### Description:

The Logitech Extend Video Conferencing Accessories Kit transforms any meeting room into a fully integrated video conferencing space. It connects to laptops or mobile devices without the need for additional drivers or software, making it ideal for both Android and BYOD-based rooms. The kit provides quick, high-quality video conferencing with HDMI 2.0 4K support, flexible power delivery options, and easy management via Logitech Sync. Whether you are using a Rally Bar or other compatible Logitech conference cameras, this solution ensures a streamlined experience with minimal cables and a clean workspace.

### Features:

**Seamless BYOD Experience**
Logitech Extend simplifies your meetings by allowing any participant to connect easily via USB-C. Whether using a laptop or mobile device, you can quickly join a meeting without the need for extra cables or software installations. The kit supports a variety of video conferencing platforms, making it perfect for diverse environments.

**Effortless Connections, No Software Required**
With the USB-C cable, just plug in your laptop or mobile device and start your meeting. No additional drivers or software installations are necessary. This ease of use ensures that your meeting starts promptly, every time.

**Extended Reach for Larger Rooms**
For larger spaces, Logitech Extend enables BYOD connections through category cabling. This flexibility ensures that your entire team can connect to the conference room's display and camera system without hassle, even in bigger rooms.

**Optional Power Delivery**
The system allows you to deliver up to 100W of power to your laptop or mobile device by simply connecting a USB-C power adapter to the Table Side (TX) box. This feature eliminates the need for additional power outlets, keeping your workspace tidy.

**Key Specifications**

- Part Number: 952-000199
- Dimensions: - Display Side Box: 143 mm (Height) x 143 mm (Width) x 34.5 mm (Depth)
- Table Side Box: 143 mm (Height) x 143 mm (Width) x 34.5 mm (Depth)
- Device Management: Logitech Sync device management
- Ports and Interfaces: - HDMI 2.0 4K60 4:4:4
- 2x USB 2.0 Type-A
- USB-C (secured)
- Micro USB Management Interface
- RJ45 connections (to Table Side and Display Side)

**Mounting Options**

- VESA Mount: 100 x 100 mm
- Mounting Holes: 2 through-holes for secure wall or table mounting (hardware included)

**Connectivity Made Simple**
The Logitech Extend system is designed for a simple, single-cable setup. It supports both HDMI and USB-C connections, ensuring that the device is compatible with a wide range of display and camera options. The included magnetic dock helps keep your cables organized, and the grommet adapter allows for neat installation through tables.

**Remote Management and Firmware Updates**
Logitech Sync allows you to manage your devices remotely, monitor connectivity status, and deploy software updates. This system is also compatible with Zoom Device Management and Microsoft Teams Admin Center, providing seamless firmware updates and easy device management across multiple rooms.

**Sustainable Design**
Logitech is committed to sustainability, using 40% certified post-consumer recycled plastic in the construction of the Logitech Extend kit. Additionally, the packaging is made from FSC-certified paper, further minimizing environmental impact.

**Compatibility and Integration**
The Logitech Extend kit is compatible with a wide range of conference cameras such as Rally Bar, Rally Bar Mini, MeetUp, and others. It works with major video conferencing platforms, including Zoom, Microsoft Teams, and Google Meet, ensuring broad compatibility for all users.

**What's Included in the Box**

- Display Side (RX) Box
- Table Side (TX) Box
- USB-C to USB-C cable (1.5m)
- Micro USB to USB-A cable (1m)
- Power supply
- Mounting hardware
- 25.4 mm Grommet adapter
- Magnetic dock
- User documentation

**Environmental Impact**
By choosing Logitech Extend, you're supporting a more sustainable future. The kit is built with recycled plastics and packaged responsibly, helping reduce the environmental footprint of your business. Plus, Logitech's ongoing commitment to reducing carbon emissions ensures that your investment aligns with eco-conscious values.

**Conclusion**
Logitech Extend offers an efficient, user-friendly solution for modern video conferencing needs. From seamless connectivity to easy power delivery and sustainable design, this kit elevates your meeting room experience while supporting environmental

responsibility. Whether you're setting up a BYOD or Android-based room, Logitech Extend simplifies the process and ensures a professional, high-quality experience.
