Specifications

About this product

The Logitech C922 Pro Stream Webcam (960-001088) delivers Full HD 1080p video at 30fps or smooth 720p HD video at 60fps for professional live streaming, video calls, online meetings and content creation. Featuring a glass lens, autofocus, automatic low-light correction and dual stereo microphones, this USB webcam provides clear video and natural sound for streaming on platforms such as YouTube and Twitch. Its adjustable universal mounting clip and tripod compatibility offer flexible positioning for desktop setups. Buy the Logitech C922 Pro Stream Webcam online today for high-quality video communication and streaming in South Africa.

Overview Summary

Logitech C922 Pro Stream Webcam - Full HD 1080p Streaming Camera

The Logitech C922 Pro Stream Webcam is designed for streamers, content creators, professionals and remote workers who need dependable video quality. It supports Full HD 1080p recording and streaming at 30 frames per second, as well as 720p HD at 60 frames per second for smoother motion. The glass lens, autofocus system and automatic low-light correction help maintain clear images across changing lighting conditions.

Two built-in omnidirectional stereo microphones capture natural audio, making the webcam suitable for video conferencing, online presentations, streaming and everyday communication. The 78-degree diagonal field of view frames the user comfortably, while the adjustable universal mounting clip supports placement on compatible laptops and monitors. A tripod mounting option provides additional flexibility for recording and streaming setups.

Performance tier: Full HD streaming and productivity webcam

Uses: Live streaming, video conferencing, remote work, online teaching, video recording, content creation, online presentations, gaming broadcasts

Overview

Connect with superior clarity every time you go live on channels like Twitch and YouTube. Stream anything you want in your choice of Full 1080p at 30fps or hyperfast HD 720p at 60fps.

Description

The Logitech C922 Pro Stream Webcam is a versatile USB camera developed for high-quality streaming, video communication and digital content production. With support for Full HD 1080p video at 30fps and 720p HD at 60fps, it allows users to select a resolution and frame rate suited to their streaming or recording requirements. The 1080p mode delivers detailed video, while the 720p 60fps option provides smoother motion for dynamic content and gaming broadcasts.

Its Full HD glass lens and autofocus system help keep the subject in focus during video calls and recordings. Automatic low-light correction adjusts the image to help maintain visibility when room lighting is less than ideal. The 78-degree diagonal field of view provides a natural framing option for individual presenters, streamers and remote meetings.

Audio is captured through two built-in omnidirectional stereo microphones, helping voices sound natural during conversations, presentations and live broadcasts. The integrated microphones provide a convenient solution for users who want video and audio capture from one device.

The webcam connects through USB 2.0 and includes a 1.5-metre cable. Its adjustable universal mounting clip is designed for compatible laptops and monitors, while the tripod mounting option allows it to be incorporated into alternative recording setups. The Logitech C922 is compatible with supported Windows and macOS systems, ChromeOS and popular streaming applications, subject to the software and operating system requirements.

Whether you are setting up a streaming station, conducting online meetings, teaching remotely or recording video content, the

Logitech C922 Pro Stream Webcam provides Full HD video, flexible frame rate options and integrated stereo audio in a compact camera.

Features

The Logitech C922 Pro Stream Webcam combines video quality, clear audio and flexible mounting for streaming and everyday communication.

- Full HD 1080p video: Record and stream at 1920 x 1080 resolution at 30fps for detailed video.
- 720p HD at 60fps: Choose 1280 x 720 video at 60fps for smoother motion during dynamic streams and recordings.
- Glass lens: The Full HD glass lens supports clear image capture for calls, broadcasts and video production.
- Autofocus: Automatically adjusts focus to help keep the subject clear during use.
- Automatic low-light correction: Helps improve image visibility when lighting conditions change.
- Dual stereo microphones: Two built-in omnidirectional microphones capture voice audio for meetings and streams.
- 78-degree diagonal field of view: Provides a practical viewing area for individual presentations and streaming.
- USB 2.0 connection: Connects to a compatible computer through USB.
- Adjustable universal mounting clip: Supports mounting on compatible laptops and monitors.
- Tripod mounting support: Allows use with a compatible tripod for flexible camera positioning.
- Streaming software compatibility: Works with popular streaming applications such as OBS and XSplit, subject to software and system requirements.
- Compact design: Fits into desktop, home office, video conferencing and content creation setups.

DESIGNED FOR SERIOUS STREAMERS

Buff your stream with the enhanced video clarity of the Logitech C922 PRO webcam. Choose between 1080p at 30fps or 720p at 60fps and captivate your audience with reliable no drop audio, autofocus, and a 78degrees diagonal field of view.

FULL HIGH-DEF 1080P STREAMING

Stream and record vibrant, true-to-life video. C922 features a glass lens with autofocus and a 78degrees diagonal field of view. Full HD streaming captures all the details, bright, natural colors, and fluid video at 1080p/30fps-and in HD at 720p/60fps. Use Capture to zoom, pan, and edit while streaming or recording.

HYPERFAST FRAME RATE

Serious streamers need the hyperfast frame rate of 60fps at 720p for particularly smooth video, and that's just what the C922 delivers. You'll be live broadcasting with no lag or distortion, so you have the full attention of your viewers.

AUTO LIGHT CORRECTION

HD autofocus and light correction work to fine-tune lighting conditions, producing razor-sharp, high-def video in any lighting, so you always look great on stream.

DUAL-MIC STEREO SOUND

Fitted with two omni-directional microphones, the C922 Pro Webcam captures more realistic sound from multiple angles-so your chat can hear your clear and natural voice.

VIDEO MEETING MAESTRO

Choose how you show up in video meetings. Use Logi Tune webcam software to adjust settings like zoom and field of view to present yourself in the best light. Keep your webcam up to date and join meetings with just one click.

OPTIMUM GEAR ECOSYSTEM

Logitech G HUB software gives you a single portal for optimizing and customizing all your supported Logitech G gear: mice, keyboards, headsets, speakers, and webcams.

FAQ

What is the maximum resolution of the Logitech C922 Pro Stream Webcam"

The Logitech C922 supports Full HD video at 1920 x 1080 resolution at 30 frames per second.

Can the Logitech C922 record at 60fps"

Yes. It supports 720p HD video at 60 frames per second for smoother motion during streaming and recording.

Does the Logitech C922 have a built-in microphone"

Yes. It has two built-in omnidirectional stereo microphones for capturing voice audio during video calls, presentations and streams.

Is the Logitech C922 suitable for gaming streams"

Yes. Its 1080p at 30fps and 720p at 60fps video modes make it suitable for gaming broadcasts and other live streaming applications. Streaming performance also depends on the computer, internet connection and software configuration.

Does the Logitech C922 support autofocus"

Yes. Its autofocus system adjusts focus automatically to help maintain a clear image during video calls and recordings.

Can the Logitech C922 be used in low-light conditions"

Yes. Automatic low-light correction helps adjust the image when lighting conditions are less than ideal. Results depend on the available light in the room.

How does the Logitech C922 connect to a computer"

The webcam connects through USB 2.0 using its attached 1.5-metre USB cable. The computer must have a compatible USB connection and supported operating system.

Can the Logitech C922 be mounted on a tripod"

Yes. It supports tripod mounting and includes an adjustable universal mounting clip for compatible laptops and monitors. Confirm whether a tripod is included in the specific retail package.

Is the Logitech C922 compatible with OBS"

Yes. The webcam works with OBS and other popular streaming applications, subject to the application version, operating system and computer requirements.

Does the Logitech C922 have a privacy shutter"

No. The C922 does not include a built-in privacy shutter. Users should disconnect or cover the camera when visual privacy is required.
